Nazis Plan War to Wipe Out 'British Supremacy'

NO PEACE, SAYS GERMANY, TILL AIM'S REACHED

Declares Nation Far Beyond Time for Mediation, Victory Sole Goal Now.

STAND FIRM ON DECISION

Germans to Let Judgment of Military Chiefs Decide Time for Attack, Envoy Says.

(By Associated Press)

BERLIN—An authoritative source announced today that Germany had decided to "fight until British supremacy in the world is destroyed."

Germany, this source said, "will have no peace terms to offer until such a victory has been won."

The statement was made in connection with the German reply to the mediation offer of the Netherlands and Belgium and in answer to the question, "What might Germany's peace terms be?"

Germany's reply to the mediation offer, made orally by her foreign minister, Joachim von Ribbentrop, was a polite "no."

(Franz von Papen, Germany's ambassador to Ankara, said yesterday that Germany was fighting to "avoid a repetition of the tragedy of Versailles and to build a better Europe.")

Caution!

Readers are reminded that dispatches from the belligerent nations of Europe and from the Far East are subject to censorship.

"It is no longer a question of German peace terms," the Berlin official stated.

'Really To Fight.'

"Such a question might be raised in Paris and London, but not in Berlin. We are far beyond that and there will be no peace terms until we reach success. We are as ready to fight as we were for peace."

This source said there was speculation throughout the world over why Germany did not attack.

"The speculators assert we need to attack to keep up morale," he said, "or we must attack the southeast for (foreign minister, Von Ribbentrop needs a success to show the Fuehrer.

"We have no fear of attacking, but intend to let military judgment choose the time and not to be goaded into it by foreign propaganda."

His statement emphasized that it "would be a great mistake for the outside world to get the impression there was weakness here."

Troy Bank Night Cancelled; Court Calls It Lottery

TROY, O.—(UP)—There'll be no "bank night" at the Troy Amusement company's theater this week.

Judge Richard L. Cameron of Marysville ruled in common pleas court here that "bank night," as operated by the theater, is a lottery.

Judge Cameron yesterday dismissed an injunction to prevent seizure of the firm's equipment. The amusement company indicated that the decision will be appealed to the Ohio supreme court.

Andrew Attenweiler of Troy had brought suit to get a judgment for money he had expended on "bank night" tickets but lost in a justice court. His case is pending now in common pleas court.

SEIZE CRUISER

British Report Capture of 989-Ton German Freighter.

LONDON—(INS)—Captured by a British cruiser, the 989-ton German freighter Leander has been escorted to a port on the west coast of England, it was announced today.

It was believed the Leander was intercepted while attempting a dash to Germany from Vigo, Spain, where it had taken refuge since outbreak of the war.

Justice Stricken

Associate Supreme Court Justice Pierce Butler, above, died at the age of 73 today in Washington. He was a leading dissenter to New Deal legislation. His death leaves appointees of President Roosevelt holding the majority on the bench.

TAX RATE GOES UP .6 OF MILL

School Bonds and T. B. Levy to Hike City Assessment for 1940, Auditor Says.

Mansfield's tax rate for 1940 was set today at 16.20 mills, an increase of six-tenths of a mill over this year's rate, County Auditor Norman L. Wolfe said.

The increase amounts to only 60 cents per $1,000 property valuation despite the fact that the city's $550,000 school bond issue and a county-wide tuberculosis levy will go on the tax duplicate for the first time next year.

The school bonds will require eight-tenths of a mill more and the T. B. levy will add a half mill to the city tax rate, Wolfe said.

While a tentative rate was established several weeks ago, the auditor said he was unable to set a definite rate until after election because there were two proposed levies on the ballot. One of them—the three-mill school levy—was approved, but it was already on the tax duplicate and made no change in the tax rate.

The other, a two-tenths of a mill levy for recreation purposes, was defeated. It is not on the 1939 tax duplicate.

Keeping the increase down were reductions of two-tenths of a mill in the Mansfield Conservancy tax rate and three-tenths of a mill in the county debt requirements.

The conservancy tax, collected separately this year, will be consolidated with the city tax in 1940 and will be collected at the same time. Next year's conservancy levy will be four-tenths of a mill as compared with six-tenths this year.

EMPIRE STEEL TO SHIP HUGE ORDER TO JAPS

80 Cars of Sheet Steel Will Leave Within 15 Days in $500,000 Purchase.

LARGEST SINGLE SHIPMENT

Order Received After Germany Went to War, Must Be Completed by Jan. 1.

The first shipment of a half million dollar order of steel from the Empire Sheet and Tin Plate company will leave Mansfield within the next 15 days, bound for Japan, James M. Hill, president of the company, announced today.

The first section will be made up of 80 cars of steel, the largest single shipment ever to be sent from the Mansfield plant in its history, Hill said.

The entire order, amounting to more than $500,000, must be completed and shipped by Jan. 1. The steel will be sent to an eastern port and taken aboard Japanese ships which will return by way of the Panama canal to the Pacific.

Benefits From War.

The order was received by the Mansfield company last August after the European war had been declared. Japan formerly purchased most of her steel from Germany. Hill said that the steel was to be used for manufacturing and farm machinery, and not for munitions.

Although Japan has not been declared a belligerent by President Roosevelt and the cash-and-carry policy set up in the recent neutrality bill does not apply to that country, the policy of Empire always has been cash-and-carry as far as exports are concerned, and the Japanese government will take clear title to the steel at seaboard, Hill said.

The steel plant has been operating at almost full capacity since the order was received with 1,400 men working full time.

The entire shipment to Japan will be in sheets of steel.

ROCKY MOUNT, N. C.—(AP)—A prisoner Deputy Sheriff S. Felton was guarding snatched a pint of illegal whisky the officer had seized and fled into a woods.

Dramatic Rescue at Sea After Nazi U-boat Torpedoes British Ship

Seamen cling to sub deck. **Lifeboat returns to rescue ship.** **Seamen reach rescue ship.**

These dramatic pictures, taken aboard the Standard Oil tanker R. G. Stewart about 200 miles off the English coast, show the rescue of the crew of the British steamer Inverliffey after it had been sunk by a Nazi U-boat. The photo at left shows a dozen seamen who were in a swamped lifeboat, clinging to and standing on the slippery deck of the German submarine, which would have submerged at any moment had a British destroyer or plane appeared. The other pictures show rescue of the crew by the tanker.

AUTO SALES SET BUSINESS PACE

63 Per Cent Increase Due to New Models Highlights Monthly Review.

A spectacular increase in automobile sales during October stimulated the current "economic heat wave" as Mansfield swung into the closing months of 1939.

The introduction of 1940 models by automobile manufacturers during October accounted for a 63 per cent gain in new car sales last month, the Chamber of Commerce monthly business review revealed today.

The chamber's figures, coupled with a report from the state Bureau of Unemployment Compensation which revealed a decline in applications for benefits in the Mansfield area, disclosed that Mansfield's business barometer showed improvements for the fourth consecutive month.

Increased employment in Mansfield industry which was boosted to 10,207 persons last month resulted in a 16 per cent decrease in the number of applications for unemployment compensation, C. W. Handley, district manager, reported.

With two exceptions gains were shown in all classifications of business last month. The increases ranged from a three per cent rise in industrial employment to 63 per cent in new car sales.

FRUITS BANNED

Britain's U. S. Exports to Center on War Supplies.

LONDON — (AP) — Exports of fresh fruit from the United States to the United Kingdom virtually have been prohibited effective today.

Under Britain's wartime laws licenses for fruit imports will be granted for some parts of the empire, but it was said authoritatively that none would be granted at present for the United States.

Officials of the British food ministry would not say when trade in American fruits might be resumed.

It was asserted, however, that "Britain can hardly squander her foreign currencies in fruit when there are such things as war materials to be bought and paid for in America."

U. S. Releases Capone From Pennsy Prison

'Scarface,' Secretly Transferred to Lewisburg Pen; Merry-Go-Round Writers Score 'Beat' by Discovery.

(By Associated Press)

WASHINGTON—Al Capone, Chicago's fabulous gang overlord in the lush days of prohibition, went free today after seven years in prison—but what that freedom meant to him other than removal of the handcuffs and an end to barred cells federal prison authorities refused to disclose.

The ailing "Scarface" was given his unconditional release at Lewisburg, Pa., penitentiary in the early hours of the day, according to Director James V. Bennett of the federal prison board. But then he disappeared—still in company of federal officers—as effectively as if he had been put once again behind the grim walls of Alcatraz.

Hours after the release was effected, Bennett gave this account:

Capone, who had been held in Terminal Island prison, California, for 10 months after having been removed from Alcatraz because of ill-health—he was reported suffering from paresis, a brain disease—arrived at Lewisburg, Pa., early today.

There he was given his "unconditional" release. He was not met by relatives, although there were indications he was to be met soon afterward by his brother, Ralph Capone. He was given a suit of clothes but not the $10 cash ordinarily handed to federal convicts upon discharge.

He had been taken into the prison through the main entrance but when he left it was, probably, by another gate—and still in the company of federal officers. For Warden Henry C. Hill, Dr. George Hess, chief medical officer at Terminal Island, and another official went with him.

The former gangster, who had served time for income tax law violations, was not handcuffed. He was guarded for his own protection, although Bennett said that

Capone . . . Free.

Strato Planes Equipped With 'Periscope' New Nazi Weapon?

(EDITOR'S NOTE: In the following dispatch which the British censor refused to pass until today, Robert G. Nixon reveals that German military scientists are credited with development of an "aerial periscope" for sub-stratosphere planes which may revolutionize aerial warfare.)

* * *

By ROBERT G. NIXON

LONDON—(INS)—Squadrons of substratosphere warplanes equipped with "aerial periscopes" form the latest "terroristic weapon" possessed by Germany, according to neutral diplomatic quarters in London.

Only today am I permitted to reveal this news to the outside world. When I attempted to send this report to New York nine days ago, on Nov. 7, I was informed by the censor that the dispatch had been "killed."

Today, however, authorities informed me that the dispatch could be sent.

According to the neutral diplomatic circles here, German scientists are credited with having developed the aerial periscope, an implement which, it was stated, may revolutionize the entire strategy of warfare in the skies.

The periscope, according to these well informed sources, is devised to penetrate the deep fog and "zero" visibility which often enshrouds the British Isles in winter.

The secret implement is said to use infra-red rays to penetrate fog and clouds, reflecting back a view of the terrain in high magnification on a glass mounted on the bottom of the plane's fuselage, enabling the pilot to obtain a view of the ground from a point high above the clouds.

It was stated that the general effect is similar to that obtained by looking through a flouroscope, an instrument used in the practice of medicine.

Furthermore, it was said, the Germans secretly have been building a fleet of substratosphere planes with pressure-sealed cabins in which an atmospheric condition similar to that prevailing at 8,000 feet can be maintained

Wallace denied a defense motion for a mistrial. Prosecutors said the bund leader was now accused of stealing only $674.73 from the bund's treasury. Benjamin Blattner, accountant for the state, admitted "a discrepancy of $3,800" in his testimony.

METAL SPILLS, 1 DEAD, 9 HURT

Toledo Workmen Injured When 5 Tons of Molten Metal Spills From Ladle.

(By Associated Press)

TOLEDO—One man was killed and nine others burned, one seriously, when a ladle containing white hot metal broke in the molding room of the Unitcast corporation today, showering workmen with liquid fire and igniting woodwork.

Eugene Miller, 32, a molder, died in a hospital shortly after the accident. Little hope was held for the recovery of Robert Bick, 27, plant chemist.

Others hurt: Lawrence Scott, 23, Frank Nagy, 46, Joseph Hornyak, 58, Otis Clark, 42, Lee Smith, 33, Elihu Littlejohn, 38, Martin Roman, 44, and Emil Witdock, 48.

The accident occurred while a huge ladle containing five tons of molten metal, heated to 3,000 degrees Fahrenheit, was being moved by a crane to molds. As the crane swung the ladle the metal poured from a leak in the container.

The gap widened and the sizzling metal dropped about five feet to the floor, scattering over a distance of 30 feet where 20 workmen were engaged at various tasks. It sputtered and flamed as it struck the cold floor and the injured who were not struck by the flaming metal were burned when it spattered from the floor.

Mayor Claude M. Hunter spent $128 in his unsuccessful campaign for re-election at the Nov. 7 election, his expense report to the county board of elections showed today.

There were no contributions from the Democratic campaign committee or any other source listed in the report.

Other reports of expenditures were filed by George Berg, elected councilman-at-large on the Democratic ticket, who spent $31.79; J. R. Anderson, defeated for councilman-at-large on the Republican ticket, who listed $15.25, and Frank R Tingley, unsuccessful candidate for Madison township trustee, who said he spent $17.25.

The expense reports, required of all candidates, must be filed by Friday night to comply with the state law.

STRICKEN UNEXPECTEDLY

Death Leaves Roosevelt's Appointees Hold Majority on Federal Bench.

BULLETIN

WASHINGTON—(U.P.)—Nomination of Attorney General Frank Murphy to be an associate justice of the supreme court and promotion of Solicitor General Robert H. Jackson to cabinet rank appeared likely today to follow the death of Justice Pierce Butler.

(By Associated Press)

WASHINGTON—Associate Justice Pierce Butler of the supreme court died today.

The 73-year-old justice entered a hospital for treatment of bladder trouble last summer, and with the exception of two weeks when he was able to return to his home, he had remained there since.

His death meant that President Roosevelt's appointees would be in the majority on the court. Mr. Roosevelt has named four of those on the nine-man tribunal.

Butler was a Democrat, but officials of the Roosevelt administration had termed him one of the two "conservative" members of the court, the other being Justice James C. McReynolds.

Although Butler was the third oldest of the justices—Chief Justice Charles Evans Hughes, like McReynolds, is 77—he had been reported in robust health during the term of court which ended last June.

Butler ranked next to McReynolds as the tribunal's leading dissenter.

Held Against AAA.

Major decisions to which Butler dissented last term included rulings holding constitutional the 1938 Agricultural Adjustment Act, holding that a group of private power companies could not attack the constitutionality of the Tennessee Valley Authority power program, and that a state may impose an income tax on salary received by federal employes.

Butler was the only Catholic on the court.

Surviving are Mrs. Butler and the following children: Pierce Butler, jr., William Butler, Francis Butler, all of St. Paul; Leo Butler, and Miss Margaret Butler, of Washington, and Mrs. Edward K. Dunn, of Baltimore.

Death came so suddenly that neither his doctor nor members of the family were present. The attending nurse called the doctor. Flags in front of the supreme court building soon were lowered to half mast.

Born in a Minnesota log cabin, Butler practiced law at St. Paul until appointed to the court in

Do Siamese Twins Owe For 1 Or 2? It's Big Problem

BOSTON—(AP)—Are Violet and Daisy Hilton, the famous Siamese twins, two persons or one?

The American Guild of Variety Actors (AFL) wrestled with this problem today and called a meeting of its executive committee in an effort to decide it.

Thomas D. Senna, business agent for the guild, maintained that the girls, now circus performers, should apply separately for membership in the guild and pay individual dues.

He maintained it for hours in an argument with the twins last night, but they refused to agree and Senna refused to issue a joint membership card to them.

Violet and Daisy, who have been joined together by a spinal growth since their birth in England, contended they had been denied marriage licenses in 20 states on the ground they legally were one, not two.

Violet was married once in Texas but she described that as a "publicity stunt" and said the marriage was soon annulled.

LIKE TRAINING

Collegians Who Study Military Courses Show Increase.

NORMAN, Okla. —(AP)—American youth's enthusiasm for courses in military science mounted with the war talk in Europe, says Lieut. Col. Paul V. Kane, of the University of Oklahoma military staff.

"Within the last two years, as foreign affairs became badly tangled, the number seeking to continue training for a reserve commission increased 20 per cent," he said.

He explained that a man with R. O. T. C. training would have a distinct advantage, if America is involved in war, over other students, because he would be a non-commissioned officer even though he had taken only a basic military course.

WAYS, MEANS

Discuss Traffic Problem, Find They Cause New Jam.

OKLAHOMA CITY — (AP) — Frank S. Smith, former G-man and Oklahoma City's new chief of police, was caught in a traffic jam and looked around for traffic officers on duty in that block.

"Finally I saw them standing on a corner talking with both hands," said the chief.

Persistent honking of the automobile horn failed to distract them from their argument before the jam finally broke and the chief's car moved on. Later he summoned the two eloquent officers.

"What," said the chief, "were you arguing about?"

"We were discussing ways and means of improving Oklahoma City traffic conditions," said they.

CHAPTER XXVII

Rita was filled with apprehension until she finally persuaded Selia to go alone to Madame Brunet's shop, promising to meet her there at noon.

• • •

A thick mist shrouded the city streets, making a dismal scene for a girl so close to another precarious adjustment in her life as Rita now faced. This Roger Brewster matter was delicate. Roger, now hiding behind a woman's skirts, drew little sympathy from Rita, but she knew she owed Selia a real debt. Selia had befriended her when she sadly needed befriending, and, if possible, she must soften the blow she was about to receive because of Roger's impulsiveness or whatever it was.

Roger had just stepped out, Mr. Lee told Rita when she arrived at the Brewster Lumber Company's offices. She could wait in Mr. Brewster's private office if she desired.

She entered it swiftly, started at the little brunette girl seated before a typewriter. Roger's secretary? But how plain-looking she was!

"I'm—I'm Miss Rhodes," Rita began. "Are you Lela Trout?"

The girl got up from her chair, paled, sank down again. Her swiftly moving breasts under her sheer white blouse showed her agitation. "Ye-yes—I am," she stammered. "Won't you—sit down, Miss Rhodes."

"I received your note," bluntly began Rita, perching herself on the edge of a big leather chair. "I've come to have a talk with you."

"Oh, please don't think I'm dreadful—but you couldn't love Roger as I do!" burst naively from Lela.

"I'm sure I couldn't," Rita assured her soberly.

The door was flung open just then, and there stood Roger.

Roger looked too surprised to speak. He stared at Rita as if he were seeing a ghost.

Finally, he came into the room, saying, "I-I didn't expect you, Rita. What brings you here?"

Not waiting for her reply, he thrust both hands into his trouser pockets and began pacing the velvet rug, avoiding her eyes.

"Your mother and I came to town last night," Rita told him quickly. "She was worried about you."

"Mother? She's here, too?" Real fear was registered on his weak face.

"She's shopping—I'm meeting her later. You see, Roger—there are some things we ought to straighten out."

He looked at her in a perplexed sort of way, and she noticed how bloodshot his eyes were. Evidently he had been suffering keenly over his love entanglements. She was nearly inclined to be sorry for him.

She stood up, straightened resolutely.

"If you don't mind my speaking before your—your secretary—it's about our engagement, Roger. I suspect you're in love with Miss Trout. If so, it makes everything better all around. Here's the ring." She drew the big ruby from her fingers, laid it in his hand.

"But Rita—this is pretty-pretty hasty. Shouldn't we talk this over—sensibly?"

Evidently, he knew nothing about the note Lela had written, and was trying to be diplomatic.

Rita laughed carelessly. She felt gloriously free, deeply thankful to break so easily the shackles binding her to this unreliable man.

"There's nothing to talk over, Roger. It's all settled. You're marrying Miss Trout—and I congratulate you."

He hung his head sheepishly, got out slowly, "It's queer, Rita—but now you're here—I'm not so sure. When I'm with you, I always think you're the one."

"And when you are with Lela, it's different again, isn't it? I think I know you perfectly, Roger. So—I'll settle the question for you."

• • •

But it was really Lela who now did this. She jumped up, went quickly to Roger, laid a hand gently on his arm, looked appealingly up into his working face. Then suddenly she threw her arms around his neck and burst into tears.

His arms encircled her just as Rita, filled with pity for this poor little shortsighted girl, rushed away from the scene.

Glad relief surged through her when she settled herself again in the taxicab and told the driver to take her to Madame Brunet's shop. There was one big fly in the ointment now, Selia! She was about to inflict torment upon this woman who had done so much for her—up to a certain point. Forcing the attentions of her son where they were not welcome, had been something else again.

Rita felt stifled, unbuttoned her black jacket The car was speeding swiftly along and she caught glimpses between tall buildings of the hazy sun trying to break through a rift in the clouds. All at once, she felt inclined to be sorry for herself and wondered how the tangled threads of her life could ever be pulled straight. Everything was so wrong—both here and back at Palm Springs in the desert where Eva, Tom, Harry and Jimmy were, to say nothing of the countess who could be so nastily unpleasant over frustrated plans. Rita could imagine how much explaining Harry Handy had had to do after his sudden dash to the city.

By the time Rita reached Madame Brunet's shop, Selia had worn herself out by a series of dress fittings, and after hearing Rita's story, decided to call up Roger instead of making the long trip to his office. She flung aside his latest matrimonial ideas as preposterous, as something she could easily settle. If Roger faced his mother now it might set him to seesawing again, so Rita encouraged an immediate telephone conversation which might make Selia realize how beaten she was—reconcile her to future events. But Rita was entirely unprepared for the outcome.

Selia flounced out of the telephone booth livid with rage. Her silly little hat of white violets hung crazily on the side of her gray head, and her short sable coat was thrown back off her shoulders as if she were burning with fever. She ignored the bevy of clerks bowing her out of the shop, saying tautly to Rita, "Come—I'm ready."

• • •

Rita flashed her one brief glance and knew that Selia, for once in her life, had lost a real battle. She never had seen Selia's aristocratic little mouth droop at the corners before.

Apprehensively, Rita trailed the hurrying Selia across the deep-piled carpet out to the street where Preston waited.

"Back to the hotel, Preston," Selia said to the liveried chauffeur, and got quickly into the car, followed by Rita.

"It's all your fault, Rita—their being married!" Selia said abruptly as soon as they had sat down.

"Married?" It came from Rita in astonishment. She hadn't suspected so serious a turn.

"Yes, of course—what else could you expect? If you'd been alert enough, this never would have happened!"

Rita swallowed the lump in her dry throat, searched for words. At last she said, "I'm terribly sorry—I never suspected what was going on. But the girl is really nice, Selia—you'll like her—she . . ."

"What of her family—her background? She's probably a nobody—a schemer! She deliberately planned to marry Roger—took a position in his office. Oh, I know the type! I'll—I'll disinherit him!"

A long sigh escaped Rita. "It's all for the best, I'm sure," she insisted. "Lela really loves Roger—will make him a fine wife. Just the few minutes I saw her convinced me of that."

"Why should you plead her cause? I don't admire you for it, Rita—especially when you haven't lifted a finger to hold Roger."

"I've never thought it wise to run after any man," Rita shot back stiffly.

As if she hadn't heard, Selia continued sarcastically, "You evidently enjoy your reputation as the girl without a heart. Even after you'd jilted three men, I didn't believe you heartless—but I'm just getting acquainted with you. Thank heaven, your engagement to Roger wasn't publically announced."

"I refuse to be insulted, Selia. You've done so much for me, but I can't tell you how I hate my old reputation. It was the work of misguided reporters, and no longer exists. As your secretary . . ."

"I was coming to that. Naturally, it would be embarrassing if you continued with me. No doubt you can find something else. I won't need you — after today." Selia's voice was ice-cold.

Rita sat up tautly, stared at Selia in complete dismay.

"You mean—do you really mean that, Selia?" she asked faintly.

"Decidedly. Frankly, it's because you refused to do your part with Roger. If Roger hadn't been discouraged over trying to make you care for him, that girl never could have married him. She caught him on the rebound."

"That's unfair, Selia—there was no cause for rebound. I honestly expected to marry Roger. No one is to blame. You can't direct—love."

"A lot you know about love! Or have you been in love with another man all along?"

Hot tears sprang to Rita's eyes, dropping on the front of her white linen blouse, but her rising anger checked them. It was a preposterous place to put her in! Selia, using her as an alibi for her son's weak fickleness!

Rita clutched her lips tightly in her teeth to keep from telling this woman exactly what she thought of her. By rights, she should be told—if it were not for her past generosity.

The remainder of the ride back to their hotel was made in complete silence. But it was an ordeal for both women. Selia was obstinately determined to let all blame for Roger's actions settle on Rita, and Rita was equally determined not to exchange further angry words with Selia before she could get packed and out of her sight.

Freedom—With Limits

Stressing Russia's "pacifism and freedom" a world-wide invitation to revolt is extended by the Soviets and echoed here by Earl Browder. Still it would be interesting to hear of a Russian party leader who felt free enough to urge a revolt to Democracy.

Praise For Williams Formula Mounts Daily

Amazing Reports of Relief With Williams Formula Create Sensation Here.

MR. LEE V. MILLER

Men and women from far and near are flocking daily to their druggist to get Williams Formula, the famous medicine which is attracting widespread attention.

People suffering from acid indigestion, stomach gas, sick-headaches, nervousness, dizziness, "half alive" feeling because of excess acidity and lazy elimination declare they can hardly believe the remarkable relief they have experienced from taking Williams Formula.

Floods of letters have been pouring in from grateful users, praising this remarkable medicine. One of these interesting letters is that of Mr. Lee V. Miller, male practical nurse,. Portland, Mich., who says:

"I have served for some time as a male practical nurse. Being associated with the infirm of body has caused me to observe the laws of Nature more closely than many others. But even with these precautions, at my age I felt the distress due to prolonged and increasing constipation, the resulting headaches, the pimples on the face and loggy, general feeling. I noticed advertising on Williams Formula which rang so true to the ailments I experienced, I tried a bottle and was so pleased with results I have since used several bottles. It is a wonderful medicine. It relieves my constipation, my skin is clear, my headaches have been relieved. As many have stated, "Health is a most wonderful thing," and I thank Williams Formula for its help."

Why should you suffer spells of dizziness, sick headaches, nausea, poor appetite, gas, bloat, tired, rundown, "half-alive" feeling, due to acid stomach and lazy elimination? Williams Formula may be just the thing you need to bring you relief and a new zest for living. Williams Formula is a compound of Natural Herbs and Minerals which start right to work giving relief, just like taking several good medicines in one. It is sold at good drug stores in three cizes — $1.50, $6. Costs only a few cents a day to take and may be worth $10 a bottle to you in the relief it gives. Surely you owe it to yourself to give it a fair trial. Get a bottle of Williams Formula today at Hursh's Drug Store, 4th at Diamond.

Massillon, Toledo Waite Turn Down Game.

COLUMBUS—(AP)—If there's to be a "Buckeye bowl" game this year to determine who's state high school football champion, it'll have to be played between teams other than Massillon Washington and Toledo Waite—two of the top Ohio powerhouses. Authorities of both schools turned thumbs down on the proposed prep classic today.

Dave Templeton New Threat In Mansfield Lineup

IN THE RUHL BOOK

By OSCAR RUHL
News-Journal Sports Editor.

NOW something about this new craze that they call ping pong, which has invaded cellar after cellar in Mansfield.

You might call it a tempest under the jampots, one of the ardent followers of the game suggests.

That once-safe sanctuary, the cellar, sacred to Aunt Bessie and her gooseberry preserves, is safe no more.

Guys and gals, ranging from seven to senile, have thrown out the laundry tubs and the coal bins, knocked out walls, moved the furnace, give away the worn-out sofa and installed stout nine by five tables under sparkling floodlights.

Armed with insignificant rubber paddles, they're whaling away, day and night, at an even more insignificant celluloid ball.

Sometimes they call it table tennis, some times ping pong. Those who are "sold" on the game prefer table tennis.

Like miniature golf, the game's a comparatively recent phenomenon in this country. But unlike the backyard links craze, it appears to be a permanent one.

In England, however, the game of table tennis was played as far back as 1884

They called it, among other things, ping pong, gossima and whiff whaff.

Like tennis, its athletic parent, it was called a sissy game. That is, until rubber paddles superseded the plain wood-surfaced, or the hollow vellum-faced variety, the old cork or rubber balls gave way to the darting celluoid, and payers started to disable the opposition with murderous whams, twist ankles, crash into walls and threaten Aunt Besise's winter output with destruction. Yes, even the mice aer being chased.

For the mice—and Aunt Bessie—the amusement room has become the amazement room.

But Aunt B has all the best of it. All the mice can do is scram, but Aunt B. can do either, scram or learn to play.

She'll probably play.

Even Weaker Than Chicago.

YOU haven't heard much this football season about San Jose State, Louisiana State Normal, Maryville Teachers of Missouri, Manchester Teachers of Indiana, Slippery Rock Teachers of Pennsylvania, New Britain Teachers of Connecticut, Colorado Mines or DeSales of Ohio . . . but they are all unbeaten and untied. . . . Going to the other extreme, the Centenary gentlemen of Louisiana have lost eight and tied one in nine starts . . . and have scored a grand total of 13 points. . . . That's one team we would rate as the under dog against the University of Chicago. . . . Add certain All-Americas: Paul Christman of Missouri, who will make a majority of the All-America backfields despite the fact that he is a junior. . . . Against New York university he was the best football player seen in the east all year. . . . A player with his poise and all-around skill comes along about once in a decade . . . As a matter of fact, the east has few outstanding backs this season.... A notably drab season for the east. . . . The south seems to have the power this time, although the mid-west and Far West could give you an argument on that. . . . Not to mention that the southwest has unbeaten and untied Texas A. and M., rated no worse than second or third in the entire nation. . . . It may be No. 1, despite the fact that Tennessee generally is given that ranking since the downfall of Notre Dame.

Proves He Can Carry Pigskin

Star of Canton Game to Share Ball Lugging Duties With Hershey, Henke Against Shelby.

HOWARD HERSHEY, Martin Henke and Dave Templeton will carry the brunt of the Tygers' attack against the Shelby Whippets at Stadium field Saturday.

Hershey and Henke have been Coach Paul Snyder's most dependable pigskin luggers, but Templeton gave proof that he could also "carry the mail" last Saturday.

With Hershey stopped dead by the Canton McKinley defense, Templeton took up much of the slack by turning in his finest performance of the fading season.

* * *

In leading the Tygers in ground gained, Templeton pulled off runs of 17 and 16 yards, and conducted himself as a splendid offensive player in every respect.

* * *

Templeton's performance against Canton will make him a definite threat in Saturday's game as he does virtually all of the Mansfield throwing and a portion of the kicking.

Snyder expects Hershey to come back with a bang against Shelby. The Bulldogs were the first team to stop him this fall, and the Tyger tactician doubts whether the Whippets are strong enough defensively to duplicate the feat.

Henke has been one of Snyder's most dependable performers since he was shifted from the lineup to the backfield He is light as far as fullbacks go, but his lack of weight has not handicapped him to any great extent.

The diminutive Henke has been good for a couple of yards at every crack at the line.

* * *

Snyder has also been pleased with the blocking performances of Bob Lantz, and attributes his contribution to the attack as responsible for a majority of the Tygers' touchdown jaunts.

* * *

Jim Le Munyon is rated highly by Snyder as a "spot" player. His ability to boot the ball won the Sandusky game and nearly annexed the Canton fray That he can step when cut loose past the scrimmage line has also been proven to Snyder's satisfaction.

Gangway, Here Comes Dave!

DAVE TEMPLETON . . . Mansfield backfield man, who proved himself a capable ball carrier as well as passer and kicker in last week's game with Canton McKinley, will get another chance to share the pigskin lugging duties with Howard Hershey and Martin Henke when Shelby comes to Stadium field Saturday.

Hamilton Not Likely to Be Caught in Ohio Scoring Battle, However.

COLUMBUS — (AP) — Ten Ohio high school football players have hit the 100-point scoring mark this season

Of 28 players with more than 50 points, records showed today that only Massillon and New Philadelphia placed more than one. Massillon, rated as perhaps the state's strongest team, had three and New Philadelphia two men in the select ranks.

So far ahead of the scoring pack that it was unlikely he would be caught was 18-year-old Howard (Tick) Hamilton of Bellville, a 145-pounder who has chalked up 187 points on 27 touchdowns and 25 points after touchdowns.

* * *

Hamilton's total broke all known scholastic marks. He counted 62 of the points against Butler last Saturday.

* * *

Runner-up honors were being battled for by Dick Siegrist of Aurora with 125 points and Elden Bash of Mt Blanchard with 123.

The three Massillon pointmakers were George Slusser, 96, Fred Blunt, 74, and Ray Getz, who just got into the group of 28 with 56 points Heavy New Philadelphia scorers were Lloyd Reese, 84, and Jack Castignola, 66. Players with more than 50 points and their records include:

Will History Repeat Itself on Ohio Grid?

Many Remember 1920 Ohio State-Illinois Game, Won By Zuppkemen In Final Minutes.

By RUSSELL FULLER

COLUMBUS — (NS) — Although the recollections may have been dimmed by time, there are those who remember today one brisk autumn afternoon 20 years ago when from the depths of shadows lengthening across Ohio stadium Illinois emerged to edge a great Ohio State team 9 to 7 and snare the Big Ten title

It was an unforgettable scene in which 22 boys fought and broke their hearts in a desperate endeavor to gain lasting pigskin fame. And until that last minute defeat, Ohio State's slate had been clear.

In the first quarter of that memorable battle, Illinois' "Dutch" Sternaman galloped 50 yards for a score, but the Illini missed conversion.

* * *

Down through the fleeting minutes until the third quarter, Illinois valiantly protected its slender lead. But then the immortal Ohio Harley plunged over the goal for Ohio and added the all-important point. Riding toward apparent victory and wide acclaim, Ohio bitterly guarded its one-point booty.

* * *

But with less than five minutes to go, Illinois took the ball on its own 20-yard stripe. Relentlessly through the air, the Illini moved straight down to Ohio's two-yard mark. Then Bob Fletcher fell back and booted a field goal—a kick whose thud reverberates 20 years later.

Now, the Chic Harley whose name is invisibly emblazoned on every pillar in Ohio stadium spends his days in a hospital Sternaman works for a Chicago company. Fletcher is head freshman coach at his alma mater, teaching youngsters to kick the way he did when he smashed an Ohio dream

The situation of so long ago is recalled only because in the same stadium this Saturday there may well be enacted a drama differing but little from what was seen in 1919.

Only this time, the Illini come with prestige won in a single game, that in which Michigan was defeated 16 to 7. But again the Champaign school can play the role of giant killer and if victorious perhaps ruin Ohio's chance for an undisputed conference title

Suggests New Baseball Plan

National Official Proposes Shorter Season, Series.

NEW YORK—(AP)—The trend toward inter-league play in the major leagues, gradually picking up momentum like a dog with a can tied to its tail, was given a new push today by a suggestion which met with the approval of several of baseball's more influential citizens.

* * *

The sponsor of this plan, a well-known official of the National pastime, asked that his name be not mentioned. But you got the idea that it might be brought up at next month's major league meetings, along with the suggestions of Larry MacPhail, for eight "world series" right down the line between the two loops, and Gerry Nugent, for a Shaughnessy playoff in the big leagues. The new plan goes something like this:

* * *

1. Cut the regular season play down to where each team instead of meeting every other team in its own league 22 times a season would take the others on in only 18 games—nine at home and nine away.

2. Then each team in each league would play four games with every team in the other league.

3. These four games—two at home and two abroad—would count in the pennant standings somewhat on the order of the National Professional Football and Hockey Leagues.

Canton Battle To Draw 19,000

Massillon Favored to Take Old Rival Into Camp Saturday to Retain State Grid Laurels.

A CANTON M'KINLEY eleven that apparently has little but tradition with which to buoy its victory hopes, goes to battle against one of the most powerful Massillon Washington elevens in history Saturday afternoon, but despite an almost certain Tiger triumph, some 19,000 fans are expected to sit in on the proceedings.

Site of the classic, 42nd between the bitter rivals since 1894, will be beautiful Fawcett stadium in Canton, one of the most elaborate high school athletic plants in the country.

In the past five years, the mythical state championship has automatically been the prize for the Canton-Massillon winner. And for the last four seasons, the Tigers have triumphed by 6-0 in 1935, by 21-0 in 1936, by 19-6 in 1937 and by 12-0 last year.

But the state championship angle will prevail from only the Massillon standpoint Saturday The Tigers have swept to nine impressive victories in a row and most certainly will be accorded state-wide recognition as champions if they conquer the Bulldogs.

* * *

McKinley, however, has already lost to Sandusky and Warren, thus spiking any title claims Coach Johnny Reed's club might have entertained.

The 41 tussles already played between the Tigers and Bulldogs have resulted in 21 Canton vic-

DO YOU WANT ALL-WINTER RADIATOR PROTECTION FOR ONLY $1.50?
HERE'S THE WAY many car owners do it every year! They put in a couple of quarts of Du Pont "Zerone" early in the season for protection against rusting and the sudden cold snaps they know will come.
When winter gets down to real business, they add enough "Zerone" to protect them to lower temperatures. A total of six quarts of "Zerone," put in as needed, can protect a car with an average size cooling system (15 quarts) for the entire winter. And six quarts of "Zerone" cost only $1.50.
You may need a little more or less, depending on the condition and capacity of your car radiator and the severity of winter in your neighborhood. But the unusual efficiency of Du Pont "Zerone" will save you real money.
"Zerone" in a clean cooling system prevents rust and corrosion, gives better dissipation of engine heat, avoids power losses. Protect your car with "Zerone" this very day! Remember, it's only $1.00 a gallon, 25¢ a quart.

CANTON BATTLE TO DRAW 19,000

(Continued from Page 18)

tories, 18 Massillon triumphs and two ties.

However, since Canton Central high school became McKinley high in 1919, Massillon has won 12 of 20 games from the Bulldogs, suffering seven setbacks, and playing a scoreless tie in 1926.

A wet or even muddy gridiron seems to be McKinley's best chance of an upset triumph. The Bulldogs' defensive line play has been good all year and the Canton forward wall figures to give the Tiger juggernaut some trouble.

But the McKinley secondary defense is rather small and not too fast and that's a poor combination with which to combat Massillon's sensational passing attack.

In Quarterback George Slusser, the Tigers of Paul Brown have a truly great aerial artist. And pass receivers are almost too numerous to mention. The list is headed by the two great ends, Horace Gillom and Ray Getz. But Slusser's backfield mates, Bob Foster, Red James and Bill Zimmerman can do a pretty fair job of snapping Slusser's tosses.

* * *

Although Slusser is a hard, effective runner and both James and Zimmerman can lug the ball, it's been their passing offensive which has enabled the Tigers to roll up at least 40 points against every opponent they've met.

* * *

Only two teams were able to score against Massillon. Cathedral Latin of Cleveland got two touchdowns as the Tigers won their season opener, 40-13 Canton Lehman annexed six points on a run of 70 yards after an intercepted pass.

Canton's offense will undoubtedly be centered around 155-pound Andy Marantides, senior left halfback, and a plenty dangerous lad.

Dick Poling Picks:

The ratings in this table do not necessarily denote the relative strength of any one team to all other teams in the table. It does denote the relative rating and comparison to that team's opponent.

KEY TO BELOW RATING TABLE

Team listed in CAPITALS is the probable winner. A 3.00 difference in ratings is usually one touchdown difference in computing letters following the opponent's rating denote.—T., a possible tie game, R., possible reverse of choice; TR., a very close game, may tie, either team may win; RR., our choice is reverse of rating. Note! When we RR we go against our own ratings and very often that is contrary to consensus.

POPEYE—Well, You Asked For It!

SAY, WHO IS KING OF THIS COUNTRY? I THOUGHT CLAPTRAP WAS KING
WELL, HE ABDICATED IN FAVOR OF POPEYE
HE DID?
THEN POPEYE IS KING? WE ARE RULED BY A ONE-EYED SAILOR?
NO, POPEYE GAVE THE THRONE TO DR. BUGGE
IS THAT RIGHT?
YES
DO YOU FELLERS KNOW DR. BUGGE IS KING, NOW?
SURE, WE KNOW IT, WE THREW TOMATOES AT KING BUGGE
YOU THREW TOMATOES AT OUR NEW KING?
WHY NOT? WE HAD LOTS OF TOMATOES
HEY, KING, COME OUT ON THE BALCONY AGAIN!!
GREETINGS, MY LOYAL SUBJECTS
WIMPY!
PLOP!

PAM—"War Council!" By A. W. Brewerton

THE YOUNG REPORTER YOU MET IN WESTVILLE! —FOLLOWED YOU HERE, HEY? — WELL, ISN'T THAT SIMPLY ROMANTIC?
OH — I HOPE HE DIDN'T COME HERE JUST ON MY ACCOUNT, CLARE! — HE HAD SUCH GOOD PROSPECTS IN WESTVILLE!
11-16
—CLARE WAS NOT A LITTLE IMPRESSED WITH ADAMS, WHEN HE CALLED THAT EVENING! — THE CONVERSATION SOON REVERTED TO THE ALL IMPORTANT SUBJECT—JENNY WARREN!
WELL, THERE WERE NO MORE CALLS FROM THAT MAN! — HOW'S THE GIRL?
HER MEMORY IS STILL GONE! — BUT SHE'S A LOT BETTER, PHYSICALLY! — I WANT TO GET HER OUT OF THE HOSPITAL SOON!
IT CERTAINLY DOESN'T LOOK JUST RIGHT ABOUT THIS GUY CALLING UP — IF EVERYTHING WAS OKAY, SURELY HE'D GO IN PERSON TO THE POLICE — COOPERATE EVERY WAY HE COULD IN TRYING TO LOCATE THE MISSING GIRL!
I THINK YOU'RE RIGHT, NORMAN
—AND, IF WE TELL THE POLICE ABOUT JENNY — AND THEY LET THIS MAN KNOW — HE — MAY BE AN ENEMY OF SOME KIND — THE ONE SHE FEARS SO DREADFULLY — THE ONE WHO DROVE HER TO TRY SUICIDE!
IS PAM RIGHT? WAS THE "MAN ON THE PHONE," FRIEND — OR ENEMY?

BROKERS AWAIT DEFINITE TREND, MARKET MIXED

List Lack of War News Among Items Holding Back Stock Trading.

(By Associated Press)

NEW YORK—Rubbers and a few specialties pointed moderately upward in today's stock market, but numerous issues continued to hover behind small minus signs.

On the easy side were Bethlehem Steel, Republic, Chrysler, General Motors, Sears Roebuck, Douglas Aircraft, Western Union, Anaconda, American Smelting, and Consolidated Edison.

Mild support was accorded U. S. Rubber, Goodrich, United Aircraft, Union Carbide, American Telephone and Johns-Manville.

Brokers again attributed speculative indifference partly to lack of important European war news, thoughts of tax boosting by the forthcoming congress and the possibility the recent upswing in business and industry is due for at least a temporary let-down in the next month or so.

Holders of tire company shares found some encouragement in estimates that domestic crude rubber consumption in October reached the highest level for any month on record.

A recovery straw was seen in the summary of the Engineering News-Record indicating construction awards for the country in the week ended Tuesday were the second largest of the year to date, the aggregate of $96,416,000 topping the corresponding period last year by 64 per cent.

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

THANKSGIVING DAY ALREADY!

Texas Town To Have 3 Holidays, Due to Enterprising Mayor.

MONAHANS, Tex.—(AP)—This may be just plain Thursday, Nov. 16, to President Roosevelt, but it's Thanksgiving day here.

Furthermore, there'll be two more—the 23rd, and the 30th.

Mayor Elmer Hill said he just couldn't let Mr. Roosevelt or Texas' Gov. W. Lee O'Daniel get the best of him, so he'd go 'em one better and proclaim the third Thanksgiving. O'Daniel announced he would proclaim both days after the president had set the 23rd as the official one.

STOCK LEADERS UP FRACTIONS IN MILD RALLY

Goodrich in Demand Following Announcement of Company's First Dividend Since 1937.

(By Associated Press)

NEW YORK—The stock market jogged along a highly selective course today and leaders added fractions to around a point.

Gainers included U. S. Steel, Bethlehem, Chrysler, Boeing, Glenn Martin, Anaconda, Westinghouse, du Pont, Caterpillar and Sears Roebuck.

Goodrich was in demand following announcement of the company's first dividend on the common since Sept. 1937.

Observers noted the assertion of "Iron Age" that pressure from steel consumers for delivery "provides strong evidence" that much of the production of the industry is quickly passing into finished products and that "inventories of most consumers still are far below normal."

So far, the periodical said, the industry is unable to detect signs of a backing up of the flow of steel from the mills to the ultimate consumer. Most companies in the last ten days, it declared, have made no progress in reducing backlogs.

Electric power production for the week ended Nov. 11 dropped a little from the preceding week's output but was still 13.8 per cent ahead of the 1938 comparative.

BOARD PLANNING DEDICATION OF GALION SCHOOL

Expect New Building to Be Completed in Time for Exercises on Jan. 8.

GALION—At the regular meeting of the Galion Board of Education, Tuesday night, the dedication for the new East School building was tentatively set for the week of Jan. 8, when it is expected that all equipment will be installed in the building.

School opened Monday in the building, with only half of the equipment installed, it was stated. Chester Stover, principal of the building, is chairman of the dedication committee.

Fixtures Purchased.

The board passed a resolution verifying the decision at the last special session regarding the purchase of electrical fixtures for the new school. Bills for the month which were read and approved for payment amounted to $1,200. It was estimated that the balance in the school treasury on Dec. 1 will amount to $1,000 at which time receipts are expected to be in.

The boiler which had been used in the old East school was sold by the board to St. Patrick's parochial school for $30. It was also reported that repairs to the water and gas lines had been made at the Senior High school building.

Supt. O. E. Hill reported that for the past four years Galion teachers have had 100 per cent membership in both the National and Ohio Educational Associations. He also told of the recent election the high school held on city candidates, and a similar election which is being held for class officers of the school.

WAKE UP YOUR LIVER BILE—
Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Refuse anything else. At all drug stores. 10¢ and 25¢.

Crestline Chapter to Make Dresses, Sweaters for War Relief.

CRESTLINE — The monthly meeting of the board of Crestline chapter, Red Cross, was held yesterday afternoon at the high school with Mrs. Elwood Adams, chairman in charge.

A communication from headquarters at Washington was read relative to the production work of the local chapter for war relief.

The goal for Crestline was set for twelve dresses, four for women and eight for girls; eighteen men's sweaters, four women's sweaters and eight for children. A motion was made to purchase the necessary material for these items. Mrs. Maude Zink, production chairman will have charge.

One case for aid was brought before the board, and was voted upon favorably.

Other routine business including the allowance of bills and the report of the treasurer, was conducted.

Nazis Plan War to Wipe Out 'British Supremacy'

NO PEACE, SAYS GERMANY, TILL AIM'S REACHED

Declares Nation Far Beyond Time for Mediation, Victory Sole Goal Now.

STAND FIRM ON DECISION

Germans to Let Judgment of Military Chiefs Decide Time for Attack, Envoy Says.

(By Associated Press)

BERLIN—An authoritative source announced today that Germany had decided to "fight until British supremacy in the world is destroyed."

Germany, this source said, "will have no peace terms to offer until such a victory has been won."

The statement was made in connection with the German reply to the mediation offer of the Netherlands and Belgium and in answer to the question, "What might Germany's peace terms be?"

Germany's reply to the mediation offer, made orally by her foreign minister, Joachim von Ribbentrop, was a polite "no."

(Franz von Papen, Germany's ambassador to Ankara, said yesterday that Germany was fighting to "avoid a repetition of the tragedy of Versailles and to build a better Europe.")

Caution!

Readers are reminded that dispatches from the belligerent nations of Europe and from the Far East are subject to censorship.

"It is no longer a question of German peace terms," the Berlin official stated.

'Really To Fight.'

"Such a question might be raised in Paris and London, but not in Berlin. We are far beyond that and there will be no peace terms until we reach success. We are as ready to fight as we were for peace."

This source said there was speculation throughout the world over why Germany did not attack.

"The speculators assert we need to attack to keep up morale," he said, "or we must attack the southeast for (foreign minister, Von Ribbentrop needs a success to show the fuehrer.

"We have no fear of attacking, but intend to let military judgment choose the time and not to be goaded into it by foreign propaganda."

His statement emphasized that it "would be a great mistake for the outside world to get the impression there was weakness here."

Troy Bank Night Cancelled; Court Calls It Lottery

TROY, O.—(U.P.)—There'll be no "bank night" at the Troy Amusement company's theater this week.

Judge Richard L. Cameron of Marysville ruled in common pleas court here that "bank night," as operated by the theater, is a lottery.

Judge Cameron yesterday dismissed an injunction to prevent seizure of the firm's equipment. The amusement company indicated that the decision will be appealed to the Ohio supreme court.

Andrew Attenweiler of Troy had brought suit to get a judgment for money he had expended on "bank night" tickets but lost in a justice court. His case is pending now in common pleas court.

TAX RATE GOES UP .6 OF MILL

School Bonds and T. B. Levy to Hike City Assessment for 1940, Auditor Says.

Mansfield's tax rate for 1940 was set today at 16.20 mills, an increase of six-tenths of a mill over this year's rate, County Auditor Norman L. Wolfe said.

The increase amounts to only 60 cents per $1,000 property valuation despite the fact that the city's $550,000 school bond issue and a county-wide tuberculosis levy will go on the tax duplicate for the first time next year.

The school bonds will require eight-tenths of a mill more and the T. B. levy will add a half mill to the city tax rate, Wolfe said.

While a tentative rate was established several weeks ago, the auditor said he was unable to set a definite rate until after election because there were two proposed levies on the ballot. One of them—the three-mill school levy—was approved, but it was already on the tax duplicate and made no change in the tax rate.

The other, a two-tenths of a mill levy for recreation purposes, was defeated. It is not on the 1939 tax duplicate.

Keeping the increase down were reductions of two-tenths of a mill in the Mansfield Conservancy tax rate and three-tenths of a mill in the county debt requirements.

The conservancy tax, collected separately this year, will be consolidated with the city tax in 1940 and will be collected at the same time. Next year's conservancy levy will be four-tenths of a mill as compared with six-tenths this year.

EMPIRE STEEL TO SHIP HUGE ORDER TO JAPS

80 Cars of Sheet Steel Will Leave Within 15 Days in $500,000 Purchase.

LARGEST SINGLE SHIPMENT

Order Received After Germany Went to War, Must Be Completed by Jan. 1.

The first shipment of a half million dollar order of steel from the Empire Sheet and Tin Plate company will leave Mansfield within the next 15 days, bound for Japan, James M. Hill, president of the company, announced today.

The first section will be made up of 80 cars of steel, the largest single shipment ever to be sent from the Mansfield plant in its history, Hill said.

The entire order, amounting to more than $500,000, must be completed and shipped by Jan. 1. The steel will be sent to an eastern port and taken aboard Japanese ships which will return by way of the Panama canal to the Pacific.

Benefits From War.

The order was received by the Mansfield company last August after the European war had been declared. Japan formerly purchased most of her steel from Germany. Hill said that the steel was to be used for manufacturing and farm machinery, and not for munitions.

Although Japan has not been declared a belligerant by President Roosevelt and the cash-and-carry policy set up in the recent neutrality bill does not apply to that country, the policy of Empire always has been cash-and-carry as far as exports are concerned, and the Japanese government will take clear title to the steel at seaboard, Hill said.

The steel plant has been operating at almost full capacity since the order was received with 1,400 men working full time.

The entire shipment to Japan will be in sheets of steel.

Dramatic Rescue at Sea After Nazi U-boat Torpedoes British Ship

Seamen cling to sub deck. **Lifeboat returns to rescue ship.** **Seamen reach rescue ship.**

These dramatic pictures, taken aboard the Standard Oil tanker R. G. Stewart about 200 miles off the English coast, show the rescue of the crew of the British steamer Inverliffey after it had been sunk by a Nazi U-boat. The photo at left shows a dozen seamen who were in a swamped lifeboat, clinging to and standing on the slippery deck of the German submarine, which would have submerged at any moment had a British destroyer or plane appeared. The other pictures show rescue of the crew by the tanker.

AUTO SALES SET BUSINESS PACE

63 Per Cent Increase Due to New Models Highlights Monthly Review.

A spectacular increase in automobile sales during October stimulated the current "economic heat wave" as Mansfield swung into the closing months of 1939.

The introduction of 1940 models by automobile manufacturers during October accounted for a 63 per cent gain in new car sales last month, the Chamber of Commerce monthly business review revealed today.

The chamber's figures, coupled with a report from the state Bureau of Unemployment Compensation which revealed a decline in applications for benefits in the Mansfield area, disclosed that Mansfield's business barometer showed improvements for the fourth consecutive month.

Increased employment in Mansfield industry which was boosted to 10,207 persons last month resulted in a 16 per cent decrease in the number of applications for unemployment compensation, C. W. Handley, district manager, reported.

With two exceptions gains were shown in all classifications of business last month. The increases ranged from a three per cent rise in industrial employment to 63 per cent in new car sales.

FRUITS BANNED

Britain's U. S. Exports to Center on War Supplies.

LONDON — (AP) — Exports of fresh fruit from the United States to the United Kingdom virtually have been prohibited effective today.

Under Britain's wartime laws licenses for fruit imports will be granted for some parts of the empire, but it was said authoritatively that none would be granted at present for the United States.

Officials of the British food ministry would not say when trade in American fruits might be resumed.

It was asserted, however, that "Britain can hardly squander her foreign currencies in fruit when there are such things as war materials to be bought and paid for in America."

U.S. Releases Capone From Pennsy Prison

'Scarface,' Secretly Transferred to Lewisburg Pen; Merry-Go-Round Writers Score 'Beat' by Discovery.

(By Associated Press)

WASHINGTON—Al Capone, Chicago's fabulous gang overlord in the lush days of prohibition, went free today after seven years in prison—but what that freedom meant to him other than removal of the handcuffs and an end to barred cells federal prison authorities refused to disclose.

The ailing "Scarface" was given his unconditional release at Lewisburg, Pa., penitentiary in the early hours of the day, according to Director James V. Bennett of the federal prison board. But then he disappeared—still in company of federal officers—as effectively as if he had been put once again behind the grim walls of Alcatraz.

Hours after the release was effected, Bennett gave this account:

Capone, who had been held in Terminal Island prison, California, for 10 months after having been removed from Alcatraz because of ill-health—he was reported suffering from paresis, a brain disease—arrived at Lewisburg, Pa., early today.

There he was given his "unconditional" release. He was not met by relatives, although there were indications he was to be met soon afterward by his brother, Ralph Capone. He was given a suit of clothes but not the $10 cash ordinarily handed to federal convicts upon discharge.

He had been taken into the prison through the main entrance but when he left it was, probably, by another gate—and still in the company of federal officers. For Warden Henry C. Hill, Dr. George Hess, chief medical officer at Terminal Island, and another official went with him.

The former gangster, who had served time for income tax law violations, was not handcuffed. He was guarded for his own protection, although Bennett said that

Strato Planes Equipped With 'Periscope' New Nazi Weapon?

(EDITOR'S NOTE: In the following dispatch which the British censor refused to pass until today, Robert G. Nixon reveals that German military scientists are credited with development of an "aerial periscope" for sub-stratosphere planes which may revolutionize aerial warfare.)

* * *

By ROBERT G. NIXON

LONDON—(INS)—Squadrons of substratosphere warplanes equipped with "aerial periscopes" form the latest "terroristic weapon" possessed by Germany, according to neutral diplomatic quarters in London.

Only today am I permitted to reveal this news to the outside world. When I attempted to send this report to New York nine days ago, on Nov. 7, I was informed by the censor that the dispatch had been "killed."

Today, however, authorities informed me that the dispatch could be sent.

According to the neutral diplomatic circles here, German scientists are credited with having developed the aerial periscope, an implement which, it was stated, may revolutionize the entire strategy of warfare in the skies.

The periscope, according to these well informed sources, is devised to penetrate the deep fog and "zero" visibility which often enshrouds the British Isles in winter.

The secret implement is said to use infra-red rays to penetrate fog and clouds, reflecting back a view of the terrain in high magnification on a glass mounted on the bottom of the plane's fuselage, enabling the pilot to obtain a view of the ground from a point high above the clouds.

It was stated that the general effect is similar to that obtained by looking through a flouroscope, an instrument used in the practice of medicine.

Furthermore, it was said, the Germans secretly have been building a fleet of substratosphere planes with pressure-sealed cabins in which an atmospheric condition similar to that prevailing at 8,000 feet can be maintained

METAL SPILLS, 1 DEAD, 9 HURT

Toledo Workmen Injured When 5 Tons of Molten Metal Spills From Ladle.

(By Associated Press)

TOLEDO—One man was killed and nine others burned, one seriously, when a ladle containing white hot metal broke in the molding room of the Unitcast corporation today, showering workmen with liquid fire and igniting woodwork.

Eugene Miller, 32, a molder, died in a hospital shortly after the accident. Little hope was held for the recovery of Robert Bick, 27, plant chemist.

Others hurt: Lawrence Scott, 23, Frank Nagy, 46, Joseph Hornyak, 58, Otis Clark, 42, Lee Smith, 33, Elihu Littlejohn, 38, Martin Roman, 44, and Emil Witdock, 48.

The accident occurred while a huge ladle containing five tons of molten metal, heated to 3,000 degrees Fahrenheit, was being moved by a crane to molds. As the crane swung the ladle the metal poured from a leak in the container.

The gap widened and the sizzling metal dropped about five feet to the floor, scattering over a distance of 30 feet where 20 workmen were engaged at various tasks. It sputtered and flamed as it struck the cold floor and the injured who were not struck by the flaming metal were burned when it spattered from the floor.

COST HIM $128

Mayor Reports Expenditures, Lists No Contributions.

Mayor Claude M. Hunter spent $128 in his unsuccessful campaign for re-election at the Nov. 7 election, his expense report to the county board of elections showed today.

There were no contributions from the Democratic campaign committee or any other source listed in the report.

Other reports of expenditures were filed by George Berg, elected councilman-at-large on the Democratic ticket, who spent $31.79; J. R. Anderson, defeated for councilman-at-large on the Republican ticket, who listed $15.25, and Frank R. Tingley, unsuccessful candidate for Madison township trustee, who said he spent $17.25.

The expense reports, required of all candidates, must be filed by Friday night to comply with the state law.

STRICKEN UNEXPECTEDLY

Death Leaves Roosevelt's Appointees Hold Majority on Federal Bench.

BULLETIN

WASHINGTON—(U.P.)—Nomination of Attorney General Frank Murphy to be an associate justice of the supreme court and promotion of Solicitor General Robert H. Jackson to cabinet rank appeared likely today to follow the death of Justice Pierce Butler.

(By Associated Press)

WASHINGTON—Associate Justice Pierce Butler of the supreme court died today.

The 73-year-old justice entered a hospital for treatment of bladder trouble last summer, and with the exception of two weeks when he was able to return to his home, he had remained there since.

His death meant that President Roosevelt's appointees would be in the majority on the court. Mr. Roosevelt has named four of those on the nine-man tribunal.

Butler was a Democrat, but officials of the Roosevelt administration had termed him one of the two "conservative" members of the court, the other being Justice James C. McReynolds.

Although Butler was the third oldest of the justices—Chief Justice Charles Evans Hughes, like McReynolds, is 77—he had been reported in robust health during the term of court which ended last June.

Butler ranked next to McReynolds as the tribunal's leading dissenter.

Held Against AAA.

Major decisions to which Butler dissented last term included rulings holding constitutional the 1938 Agricultural Adjustment Act, holding that a group of private power companies could not attack the constitutionality of the Tennessee Valley Authority power program, and that a state may impose an income tax on salary received by federal employes.

Butler was the only Catholic on the court.

Surviving are Mrs. Butler and the following children: Pierce Butler, jr., William Butler, Francis Butler, all of St. Paul; Leo Butler, and Miss Margaret Butler, of Washington, and Mrs. Edward K. Dunn, of Baltimore.

Death came so suddenly that neither his doctor nor members of the family were present. The attending nurse called the doctor. Flags in front of the supreme court building soon were lowered to half mast.

Born in a Minnesota log cabin, Butler practiced law at St. Paul until appointed to the court in

Do Siamese Twins Owe For 1 Or 2? It's Big Problem

BOSTON—(AP)—Are Violet and Daisy Hilton, the famous Siamese twins, two persons or one?

The American Guild of Variety Actors (AFL) wrestled with this problem today and called a meeting of its executive committee in an effort to decide it.

Thomas D. Senna, business agent for the guild, maintained that the girls, now circus performers, should apply separately for membership in the guild and pay individual dues.

He maintained it for hours in an argument with the twins last night, but they refused to agree and Senna refused to issue a joint membership card to them.

Violet and Daisy, who have been joined together by a spinal growth since their birth in England, contended they had been denied marriage licenses in 20 states on the ground they legally were one, not two.

Violet was married once in Texas but she described that as a "publicity stunt" and said the marriage was soon annulled.

Benjamin Blattner, accountant for the state, admitted "a discrepancy of $3,800" in his testimony.

2 BROTHERS GET TERMS IN O. S. R.

One Receives 1 to 3 Years for Non-Support, Other 1 to 15 Years for Burglary.

Two brothers were sentenced to terms in the Ohio State reformatory yesterday by Common Pleas Judge C. H. Huston, boosting to 12 the number sent to state penal institutions within the past 10 days.

They were William and Arthur Dysinger, R. D. 5, Mansfield. Both were indicted by the grand jury two weeks ago on charges of breaking and entering. A secret indictment, charging non-support also was returned against Arthur.

The latter was sentenced to one to three years in the non-support case. He still faces a charge of breaking and entering.

William was sentenced to one to 15 years on the burglary charge.

They were arrested on Aug. 31 after deputy sheriffs recovered in Wooster loot they allegedly took after breaking into the Cates Auto Wrecking company in East Mansfield.

The non-support charges were filed against Arthur by his wife, Edna.

DENVER —(AP)—State Humane Officer W. B. Wheeler says the new generation out west "just doesn't understand horses."

"They ride in a motor car up to some mountain resort and then pile out and jump on a horse's back and expect the noble hay burner to go 50 miles an hour," says Wheeler.

For Joyful Cough Relief, Try This Home Mixture

Real Relief. Big Saving. So Easy. No Cooking.

This splendid recipe is used by millions every year, because it makes such a dependable, effective remedy for coughs due to colds. It's so easy to mix—a child could do it.

From any druggist, get 2½ ounces of Pinex, a compound containing Norway Pine and palatable guaiacol, in concentrated form, well-known for its soothing effect on throat and bronchial membranes.

Then make a syrup by stirring two cups of granulated sugar and one cup of water a few moments, until dissolved. It's no trouble at all, and takes but a moment. No cooking needed.

Put the Pinex into a pint bottle and add your syrup. This gives you a full pint of very effective and quick-acting cough remedy, and you get about four times as much for your money. It never spoils, and is very pleasant—children love it.

You'll be amazed by the way it takes hold of coughs, giving you delightful relief. It loosens the phlegm, soothes the irritated membranes, and helps clear the air passages. Money refunded if not pleased in every way.

SAYS NO GOLD IN 'THEM HILLS'

Hopeful Prospectors Told Chance Of Big Find Mighty Slim.

SAN FRANCISCO —(AP)—With thousands of persons invading the famed Mother Lode gold country, Walter W. Bradley, state mineralogist, has issued a warning to hopeful prospectors.

"The odds are against them," he says. "The average earnings from hand placer mining in this state amount to less than 50 cents a day per person.

Fortunes were taken out of the California gravels in the days of the gold rush, but the productive fields have been largely worked out.

AN INDEPENDENT NEWSPAPER

MANSFIELD, OHIO, THURSDAY, NOVEMBER 16, 1939.

If anything happens to Finland the date for war debt payments might as well be forgotten.

Chances are that civilization will continue to advance—in spite of the people who prefer to act natural.

A college dean expresses belief that automobiles damage children of school age—and any mechanic will tell you that the reverse is also true.

Industrial Activity Advancing

THUS far there is no clear sign of a setback in the current business revival. Industrial activity steadily advanced during 16 of the last 17 weeks, according to the Associated Press index. The peak this season is the highest since 1929.

The best progress has been made in the production of "durable goods," tools and machinery of various kinds and rail and utility equipment. But the spread of production is very broad, and there seems to be a real boom in the manufacture of airplanes and ships.

Foreign orders are now an important part of this progress, but the improvement was well advanced before the embargo repeal. The basic gain seems to have been a natural revival of our domestic industry.

Level-headed Americans, including manufacturers and exporters, are hoping that the revival will continue to be of this essentially domestic character. There seems to be no logical reason why, with careful management and avoidance of price-raising, we should not go ahead profitably for many months, or even years, with a strong production program. Nearly everybody needs many things, and there are plenty of new products in the market, or in sight, to create new demands and more business.

Bookie Wire Service Suspends

SUSPENSION of the nation-wide wire service which had been built up to supply race track information to gamblers and bookie operators provides another example of the effectiveness of the federal department of justice in handling problems of law violation which are too big for local authorities to deal with.

It is announced that this discontinuance of service will affect every state in the union, as well as extending to Canada and Cuba.

Extent of the enterprise, which has been referred to as "the biggest racket in the country," is indicated by a recent affidavit averring that the service operators collected $7,724,531 from "bookies and gamblers" in the Chicago area alone in the 1933-36 period.

Experience in Illinois, where wire service was withdrawn a week ago, has been that bookie joint operators have continued to operate, with "sketchy and tardy" returns from the tracks.

In smaller cities, such as Mansfield, bookie operation has, for a number of years, presented one of the most embarrassing situations which successive administrations have faced—the principal problem seeming to be whether more than one of the illegal businesses should be permitted to operate without police interference.

As viewed by United States District Attorney William J. Campbell, of Chicago, withdrawal of telegraphic service from places is "a clear-cut victory for the department of justice in its effort to rid the nation of a vast illegal combine to violate federal and state laws."

Widely Distributed Buying

CONSIDERABLE emphasis is placed from time to time on the large amount of taxes which railroads pay into the counties through which their lines run, but less attention is given the matter of large purchases of supplies, fuel and equipment made by railroads in thousands of cities and towns all over the country.

Interesting figures showing a recent year's purchases by railroads reveal that buying was done from firms and industries in 12,174 cities and towns, these communities being located in 2,638 of the 3,072 counties in the United States. More than 70,000 different items, ranging from string to locomotives, were bought, and the total spent reached the huge sum of $1,133,000,000.

One reason why railroad purchases are so widespread, is that each company prefers to patronize industries in its own territory whenever possible. In other words, the carriers spend their money where they make it. They are a strong influence tending to decentralize industry—and to build up local industries and payrolls.

Progress Vs. 'Decadence'

DONALD DOUGLAS, in his column in the Chicago Daily News, has some bitter remarks to make about the dictatorships and their claim to leadership of civilization.

"When mankind prefers symphonies to the war drum, food beautifully cooked and served in elegant restaurants to bread and water gulped down in hotels with floors of earth; lyric poetry to rabble rousers; the courtly art of love, to women as household drudges, and sea voyages on festive liners to armored battleships, then civilization has attained that deplorable 'decadence' so lamented by Cato the Censor and Hitler."

It seems like a roundabout way to tell a dictator what you think of him and his regime and the people who support him, passively, if not actively. But it's just as well to remember some of the gracious things of life in these days when speakers go about telling audiences how much the dictators have done for their people.

Feminine Smoking

EUROPEAN women have now gone far beyond the cigaret-smoking stage, reports Apostle J. J. Smith, grandnephew of the founder of the Mormon church, just returned from abroad. "You can hardly find a woman who doesn't smoke, and among the so-called better class or upper crust, the women have graduated to pipes and cigars."

As followers of foreign fashion trends, and with the flair for cigarets already quite well developed, it appears that the next step for American women will be to override conventions to the extent of smoking a pipe in public—and they'll find the job of taking a puff between bites, while eating luncheon, will be more difficult with a pipe than with a cigaret.

Juvenile applause will probably greet the Rochester, Minn., physician's contention that too much winter bathing may be detrimental to health.

Man About Manhattan

—By GEORGE TUCKER

NEW YORK—New York ties in so easily with any other section of America—past or present. . . . I was thinking of this today, and about that worn, harried man who kept pacing up and down in front of the wagon. . . . It was a big wagon, with plenty of beargrease on the axles, so the wheels wouldn't squeak. . . . It wasn't just a wagon. . . . It was more than that. . . . It had great billows of canvas, and an opening at the end, where a woman in a bonnet sat in dumb misery, staring at the child whose head lay in her lap.

As far as the eye could see lay the rolling prairies. . . . As high as the eye could see climbed the stars, the glittery white stars, that seem far for awhile, but then they come down low over the prairie and aren't afraid of anything except, perhaps, the howl of a coyote.

If you were in New York, in 45th street, you saw that scene—the prairie scene from "Abe Lincoln in Illinois." . . . Some people called it the Prayer scene, because after awhile a long, loose-jointed Ichabod Crane of a man, old before his time, with stooped shoulders and tired, lonely eyes, comes walking up out of the prairie. . . . He says, 'Hello, Seth. . . . How are you. . . . How's your little boy. . . ."

* * *

THEY shake hands, and then that other man—the man with the wagon and the woman with the bonnet and the little boy—begins to talk. . . . The words pour out. . . . They half-strangle him as they come out. . . . "He's sick, Abe. . . . It's the swamp-fever. . . . Isn't there a doctor around? Isn't there a preacher. . . . He's got it bad, Abe . . . you can hear him moaning all through the night. . . . He can't get his breath . . . It's got him, Abe, the swamp-fever. . . . Say something, Abe, can't you?"

"I'll try, if you want me too, Seth. . . . If you think Mrs. Gale would want me too, though I ain't much good at speaking prayers."

You must remember the scene—that prayer. . . . I guess no one could adequately describe it. . . . But anyway you sat there, not in a theater, but out there on the lonely prairie, under those low, white stars, and heard that deep voice that must have come from some secret pocket of a man's soul. . . . It began something like this: "O God, the Father of all living, I ask You to look with gentle mercy on this little boy here, lying sick in this covered wagon."

* * *

I SUPPOSE this scene, and the way Raymond Massey handled it, has been discussed more than any scene in any New York play since I have been kicking around Broadway.

We were talking about it the other night, and—like that—the deep, humble voice of Massey—as Lincoln—came floating into the room. You couldn't believe it. . . . But there is was in the Prayer scene . . . and other scenes. . . .

What happened was that someone stepped into another room and put on one of the Lincoln records. . . . There are three of them—scenes from "Abe Lincoln in Illinois," which Massey and the rest of the cast have made. The other scenes go back to Lincoln's proposal to Ann Rutledge, and the Douglas debates, and his farewell as he leaves for the White House, and that strange, poignant scene with the drunkard in a law office in New Salem. . . .

This isn't a new idea, but it is a good one. John Barrymore made the soliloquies from Hamlet some years ago, and Maurice Evans recorded the more inspired passages from Richard II last year. It's something that should be done for all good plays by the actors who play them.

FREEDOM!

Listen, World!

Nix On Pity!

—By ELSIE ROBINSON

LOOK OUT FOR PITY! Beware of giving it or taking it, for the pay-off is always a pain in the neck.

Sounds like heresy? Yes—but that's because we confuse Pity with Sympathy, which is a noble and necessary attribute—whereas Pity is either an insult or a racket, with each side trying to beat the other to the punch.

You don't believe this, do you? You honestly think that you're really sorry for the Other Fellow and moved by only the finest impulses in his behalf . . . which conviction you naturally expect him to share and appreciate. But you're kidding yourself, comrade, as we're all apt to do in matters of this sort.

Nine times out of ten, our Charity is motivated by Conceit, rather than Generosity. We're slap-happy over our own importance and want to use the Other Chap to advertise the same. Which fact, our victim usually perceives and resents—and naturally tries to turn to his own advantage. Then we call him an Ungrateful Hound. And he tells us to Go Spit In Our Eye. And the neighbors phone for the Riot Squad . . . and everyone packs a grudge forever after.

Maybe you'd better consider these facts before you give your sister-in-law your last year's fur piece. Are you really the Dear, Good Fairy you think you are? Or are you just a lady who wants to get a lot of flattering publicity out of giving another less successful lady a last year's fur piece? In the latter case, I'd advise you to forget that pleasant urge and take up sword swallowing or snake charming instead. They're far less dangerous and expensive.

Pity's a bad risk in any human relationship, but never as hellish as when used as a foundation for marriage. Yet, human nature being what it is, no other incentive carries half its appeal.

How can the warmth of simple affection possibly compete with the thrill of saving Romantic Roland from the Demon Rum . . . or of rescuing Trembling Tilly from her Fiendish Family . . . or of proving to an amazed world that Frustrated Freddie was a genius all along, only nobody ever understood him but YOU? Particularly if you've never been such a Big Time Shot yourself. Here, at last, is a chance to prove that you have what it takes while, at the same time, earning the undying gratitude of your devoted mate!

A marvelous idea—at first. But not quite so hot when you discover that Frustration is Freddie's pet racket . . . and nothing short of dynamite can cure Roland of his hiccoughs . . . and being A Martyr is Tillie's favorite indoor sport. In short—you've gotten exactly what you asked for. You wanted to Show Off—to be a Big Shot protecting the Little Shot. And did. And this is the Pay-off. He's taken you for a ride and you deserved it.

But, chances are, being a decent soul, you can't believe it—even thought you've felt disillusionment creeping over you, following your own sentimental experiment . . . disillusionment that is gradually deepening to disgust, revulsion, hate!

"But how can I hate anyone who's so helpless," you wail as millions have done before you. Yet the answer's plain—

You hate the helpless one—and he hates you in return—because all Nature is backing you in that hatred. People weren't meant to give — or accept — Pity. People were meant to grow—and Pity keeps them from growing. People were meant to have self-respect, which is another form of growth—and Pity violates self-respect. No self-respecting person will long accept Pity — or needs to. However great our burden, there is always the power within us to rise above our handicap and command admiration and respect. But we cannot rise as long as we either give or accept Pity—FOR THEY BOTH MAKE A RACKET OF FAILURE.

THERE IS ONLY ONE REASON FOR HELPING ANYONE . . . LIKING ANYONE . . . MARRYING ANYONE—AND THAT IS MUTUAL RESPECT AND AFFECTION. MUTUAL NEED. IF YOU CAN'T RESPECT THE OTHER FELLOW, LEAVE HIM ALONE.

Sympathize and accept sympathy. Love and accept love. They both contribute to life. But never pity or accept pity—for it only contributes to death.

Real Problems Of Insomniac.

—By DR. CLENDENING

INSOMNIA worries the patient far more than it worries the doctor. Very few doctors are willing to take the time to treat insomnia scientifically. It is, of course, easy to prescribe sleeping powders, but in the case of chronic insomnia this is distinctly an example of malpractice.

The real treatment of insomnia is psychological or nutritional. A long study of the condition has brought Dr. Louis J. Karnosh, of Cleveland, to certain conclusions.

First, he does not believe that there is any standard sleep pattern. Different people have different sleep patterns, and the same person has different sleep patterns at different times in his life. Most adults sleep from six to eight hours. Older people tend to retire earlier and get up earlier.

Emotional Upsets.

Sleep is more likely to be disturbed by emotional experiences than it is by such things as loss of appetite, or a meal before going to bed, and many other such things that are always blamed.

The person with insomnia often believes that persistent loss of sleep is a calamitous disturbance, a foreboding of death or insanity, but there is no good evidence that insomnia saps the vitality of health. There is not a single piece of evidence that insomnia ever caused death.

Gillespie, a neurologist of wide experience, stated that he had never seen a patient whose mental disorder could be attributed to insomnia.

Most people who complain of insomnia sleep more than they think they do. Their real suffering consists in anticipation of the period which has been called by Ladame, the "temps latant," which is the period between retiring and actually going to sleep.

The muscles at this time gradually relax and, with the eyes closed, various imaginal experiences intrude into consciousness. They consist of a panorama of loosely connected ideas, and there seems to be no ability to hold one particular phasm and reject the others.

Such loose linkage of ideas and free association is regarded by psychologists as an overture to sleep, but the person with insomnia dreads this phase of his sleep troubles. He attains the portals of sleep but seems to have trouble getting any further.

In treatment attention to any disturbance of the general health is essential. Then psychological study and assurances may overcome the dread, which is the principal cause of insomnia. Of course, learning to relax the muscles, one after the other, is most important.

Everyday Poem

—By GEORGE ELLISTON

Map of Home.

I make a picture in my mind
Of every single thing,
Each window and each door, the porch
Where redbirds nest and sing.

I make all this secure for I
Shall keep it in my heart
And take it out for comforting
When we are far apart.

You are the center of it all,
You, framed in window, door,
You are my heart, you who each year
Mean to me more and more.

WASHINGTON Merry-Go-Round

By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON—Reports on the Dutch crisis which the state department has been laying on the White House desk are that the Nazis want Holland not as an air-raiding base against Britain but as a submarine base.

The Dutch coast is indented with some of the best harbors of northern Europe, strategically located along the bottle-neck of the greatest shipping lane in the world—the English channel.

Moreover, secret German strategy is to bring new submarines down the River Rhine into Holland. Hitler is reported dickering with the Russians for new submarines, and if the deal goes through, they probably would come from Russia by rail and the Rhine.

* * *

Queen Wilhelmina.

THE split between Queen Wilhelmina and her cabinet over whether to resist German invasion has been serious. The queen leaned toward a compromise with Hitler, chiefly because she felt sure her country could not withstand the German onslaught and she wanted to save her people from the same fate as Poland.

The Dutch cabinet, on the other hand, was emphatically opposed. Sentiment in Holland is running so strong against Hitler that any compromise would have meant the resignation of the cabinet.

Another fear in Queen Wilhelmina's mind, according to diplomatic reports cabled here, is the danger of a Japanese attack upon the Dutch East Indies simultaneous with the German march across the Dutch border.

This always has been the strategy planned by the Japanese war lords, but it has been shaken recently by Roosevelt's sudden transfer of the U. S. fleet to Hawaii and by the straight-from-the shoulder diplomancy of Ambassador Grew.

* * *

Charley Dawes.

EX-VICE PRESIDENT Charley Dawes, now 74, slipped into Washington the other day without letting his old friends know it, and had a private dinner at the Metropolitan club.

Chief guests were not the big politicos, nor the senators, but his old friends the army officers. Dawes has seen experience in almost every branch of government, from vice president and ambassador down to budget director and comptroller of the currency, but the part of his service he seems to have enjoyed most was as an army officer.

Note—Dawes is reported to be in the political camp of Senator Bob Taft for 1940.

* * *

Capital Chaff.

EXTREME precautions have been taken to guard the secrecy of the report submitted to the president by the shelved war industries board. Only four copies were made: one for the president, one for the secretary of war, a third for the acting secretary of the navy, and the fourth for Board Chairman Stettinius. . . . Postmaster General Farley, one of the best dressed men in public life, always wears double-breasted, subdued but colored suits. . . . Highets ranking unionite nabbed in Assistant Attorney Genera! Thurman Arnold's monopoly and racketeering clean-up of the building industry is William Hutcheson, president of the carpenters and first vice president of the AFL. He was indicted.

* * *

F. D. R. and J. L. L.

IT wasn't supposed to be known, but while the rest of Washington was vacationing on Armistice day, John L. Lewis had a private White House luncheon with the president.

This meeting was more fruitful than their conversation earlier in the week, when William Green and Lewis both called at the White House.

Conversation at the luncheon revolved around the idea of one big union for the entire country, which would wipe out CIO and AFL differences. The details are still to be worked out and the AFL moguls still are to be weaned over to the plan. So far they are anything but enthusiastic.

Most significant part of the luncheon conversation was the cordiality between the two men. Roosevelt's crack of "a plague o' both your houses" was forgotten; also Lewis' recent blast against the Western Progressive conference and the third term.

The president emphasized that there must be peace within the ranks of labor, and he is following this up with plans that negotiations between the CIO and AFL shall continue indefinitely, if necessary. This time, furthermore, they will not be conducted by Miss Perkins.

She may act as chairman of a conciliation committee purely for face-saving purposes, but the actual peace negotiating will be done by some of the president's closest cabinet friends.

* * *

Ism Catalogue.

DEFINING the various "isms" that dominate the world's economies is no trouble for Edgar Puryear, general PWA employment official. The one-time New Mexico farm boy deals with them in bovine terms, as follows:

Capitalism—If you have two cows, you sell one and buy a bull.

Socialism—If you have two cows, you give one to your neighbor.

Communism—If you have two cows, the government takes them and gives you the milk—sometimes.

Fascism—If you have two cows, the government takes them and gives you part of the milk.

Nazism—If you have two cows, the government shoots you and takes the cows.

* * *

Merry-Go-Round.

LATEST 1940 Democratic combination being talked in party circles is Jim Farley for president and House Leader Sam Rayburn for vice president. Both are popular with all Democratic factions and are experienced campaigners . . . During the social season, Capital tailors rent out more than 5,000 dinner jackets and full-dress suits. In some Washington shops complete evening dress, from shoes to hat, can be hired . . . The trail of early Spanish explorers in Arizona will be marked by a series of small monuments erected by the National Youth Administration and the State Highway Department.

Clams Will Walk

(A FARMER'S DIARY)

—By CALVIN A. BYERS

I WALKED along a narrow winding stream that had chiseled its way through massive banks. In places trees had fallen low across the water, forming natural living bridges. This made it difficult for me to cross, while going down the stream. Farther on the bluffs receded, and the sandy, shallow bed caused wider, slower moving water. I walked along the beach where lines of silt and gravel were paralleled like drifts of colored snow. Horse tail ferns grew in the hollows and long thin wiry roots lay trailing in the direction the water flowed. Crustacean fossils and shells of more recently departed snails lay scattered about the small, uneven waste.

Bits of blue irridescent fresh water mussels shells were at the edge of the diminutive morain. Where the shore and little river met I saw the open burrows of huge angle worms, the heaps of castings made of clay and the slimy path they took in search of food.

At the border of the stream a half dozen honey bees were drinking long and patiently. A gorgeous painted butterfly winged uncertainly and lit upon an oval greenish stone close by my feet.

Just in front of me, to the left, I saw some curious tracks. It looked as if something had dragged along the soft moist bank, and at very short intervals were little thrusts or depressions in the sand at less than a forty-degree angle. I had often seeen these signs, but had never had the pleasure of seeing this strange creature walking. I thought now, that with patience I might be able to see, for the first time in my life, a clam go strolling.

It was early in the afternoon, and not so cold. I sat upon a sun-warmed log from which the bark had fallen, and watched a large, plump mussel shell along the track that I had noticed. The first hour passed and then the second, more wearily. Still the mussel lay there as motionless as the stones about it. The log seemed harder than when I had first sat down, and my neck was stiff from looking in one direction. But on occasion, I am a stubborn man. I sat there as though on guard.

Finally I believed I saw a little motion, and after fifteen minutes more I actually saw a movement of the shell upon the sand. It mounted its edge and very slowly progressed. Just how it could force that heavy shell upright was a miracle that, even now, I can never explain.

British Will Try To Raise Thetis For Use In War

LONDON — (INS) — The British submarine Thetis, which sank with the loss of 99 lives in Liverpool Bay, will be added to the Royal Navy strength as soon as she has been "brought back to life."

Admiralty and shipyard experts, basing their opinion on the reports of divers who have examined the sunken craft, believe that two months after being recovered the Thetis will be put into service.

Despite her long submersion, there has been little corrosion of her engines and vital machinery. Chief damage was caused to electrical installations and delicate navigating instruments. These, however, can be replaced at little cost.

Salvage vessels are still awaiting calm weather before they can pump sufficient compressed air into the hull of the Thetis to refloat her.

When the submarine sails from the fitting out berth, she will carry a new name, however.

Diplomats See Eventual Defeat of Japan as Likely

CLAIM CHINA CAN HOLD OUT INDEFINITELY

U. S. Ambassador Says Army of Kai-Shek Strong Militarily, Financially.

(By International News Service)

CHUNGKING, China — Stalemate, and possibly eventual defeat, today confronts Japan in China, according to most diplomats in this provisional capital of the Chinese republic.

Views of the majority of diplomats were reflected today by United States Ambassador Nelson T. Johnson as he left by air for Hong Kong en route to Peiping.

Chinese Generalissimo Chiang-Kai-Shek, Johnson said in an informal discussion of the situation, is strong enough both militarily and financially to hold off Japan indefinitely.

After 26 months of fighting, the campaign has grown increasingly favorable for China, it was indicated.

The suggestion in Tokyo, much publicized in Japanese papers, that Chungking's government is turning Communist, now is discounted in authoritative quarters.

One sign that the western world is not confident of a Japanese victory was seen in the fact that the Italian ambassador, the Marquess Francesco Taliani, has been in Shanghai for a year, uncertain as to where to present his credentials.

Puppet Governments.

Japan has set up puppet governments in both of China's former dual capitals, Peiping and Nanking, the cities to which Marquess Taliani formerly was accredited.

Now, it is said, fellow-diplomats are recommending that the Italian ambassador definitely make his headquarters in Chungking, a move which would show that Italy is certain of the stability of Generalissimo Chiang's government.

Diplomatic quarters added that there seems not to be the most remote chance that a major central Chinese government with headquarters in Nanking, and under the guidance of Wang Ching-Wei—former vice-premier under Chiang but now a Japanese ally—can be formed.

Murder Charge Filed Against Officer Who Killed Mayor.

NEW YORK—(INS)—First degree murder charges were being prepared today against Patrolman Alvin Dooley who shot and killed Mayor Louis F. Edwards of Long Beach and seriously wounded the mayor's bodyguard, Patrolman James Walsh.

Authorities released a confession which they stated Dooley had signed and in which he was quoted as expressing anger at the mayor for supporting Walsh for the presidency of the Patrolmen's Benevolent association of Long Beach, a post Dooley sought.

"I am not sorry I killed the mayor but I am sorry I shot Walsh," the statement declared.

JURY PONDERS CASE OF G. M. C.

Weighs Anti-Trust Act Violations Charged Against Auto Leaders.

SOUTH BEND, Ind.—(U.P.)—A federal court jury today was deliberating the government's anti-trust case against the General Motors corporation, three affiliates and 17 individuals, including Alfred P. Sloan and William S. Knudsen, two of the country's leading industrialists. The jury received the case last night.

The defendants are charged with having conspired to violate the Sherman anti-trust act by forcing retail automobile dealers to finance sales through GMC's financing affiliates, thereby interfering with interstate commerce. The decision in the case will affect not only GMC but also the Ford Motor company and the Chrysler corporation, who also were indicted but took consent decrees.

GONE FOREVER

Venezuela Won't Rebuild Town Destroyed by Fire.

CARACAS, Venezuela — (AP) — Informed quarters said today the Venezuelan government would forbid reconstruction of the stilt-supported shanty town of Lagunillas on Lake Maracaibo, which was destroyed Monday night by a disastrous fire.

The village had long been considered a firetrap, it was said, but efforts to remove the inhabitants to new homes on the shore of the lake had proved futile.

Exact figures on the number of dead remained unavailable as authorities continued the search for bodies. The Maracaibo press estimated that 300 perished.

Claims 9 Out of 10 Have Had Paralysis But Didn't Know It

About 90 per cent of adults have some form of infantile paralysis at some time during their lives, but they usually are unaware of it, Dr. Frank E. Stevenson of Cincinnati told more than 100 North Central Ohio physicians last night at a session at the Mansfield-Leland hotel.

One of the speakers in the Ohie State Medican association's post-graduate lecture series, Dr. Stevenson pointed out that early symptoms of infantile paralysis are so indefinite that victims don't realize they have it unless it develops into the serious stage.

"Tests in adults show that as many as 90 per cent of them have been infected by the germs, and possibly showed early symptoms of paralysis, but the disease never developed beyond the mild stage," Dr. Stevenson said.

The important thing in treating paralyzed muscles, he said, is to avoid undue stretching of them until the soreness is gone and then gradually bring them back to usefulness.

The other speaker at last night's session was Dr. Albert D. Frost of Columbus who lectured on "The Handling of Acute Eye Conditions."

Dr. R. C. Wise of Mansfield was chairman of the meeting, the fifth in a series of six scheduled this fall. The final lectures will be given here on Dec. 6.

ONE-MAN COMEDY OF ERRORS LEAVES WELFARE HEAD DIZZY

(By United Press)

COLUMBUS — State Welfare Director Charles L. Sherwood told today how he had played the leading role in a one-man comedy of errors with acts staged in half a dozen Ohio cities.

Sherwood, one of the busiest state executives, hurried to the Columbus Union depot Monday night to catch a train for Cleveland where he was scheduled to discuss relief matters the next day.

He bought his ticket and then discovered that the train schedule had been changed and that the train had left 20 minutes before he arrived.

After a two-hour wait, he boarded another Cleveland-bound train only to discover that he had lost his ticket and had to pay his fare again.

The welfare director planned to return to Columbus by noon on Wednesday for a cabinet meeting with Governor Bricker. Relief conference upon relief conference dragged on. Sherwood telephoned his "boss" that he wouldn't be able to arrive until 6 p. m. Later he telephoned Bricker again and said he wouldn't be able to leave until 6 p. m. The governor said he would wait for him until 9:40 p. m.

Sherwood, still discussing relief matters, finally arrived at the Cleveland terminal. A conductor yelled "all aboard." Sherwood waved to Fred Ramsey, Cleveland welfare director, and hopped on the train.

A short distance out of Cleveland, he discovered he was headed for Elyria instead of Columbus. Determined to get to the capitol, Sherwood boarded another train at Elyria and headed for Sandusky where he had telegraphed Roy Rogers, new head of the State Soldiers and Sailors home, to meet him prepared to drive to Columbus.

Sandusky, and no Roy Rogers, Dismayed, Sherwood discovered that the telegram had not been delivered.

Sherwood called Rogers by telephone, explained the situation, and soon the two were driving toward Columbus. The welfare director was a few minutes late for the 9:40 p. m. conference.

Sherwood said he is going to attach a card to his back, similar to those worn by hunters, giving his name and address plus the request that the finder see that he is delivered to his home.

20 PER CENT FEE SET IN TAX SUIT

Bayer and 4 Associates to Get 5th of Any Taxes Collected as Result of Action.

Atty. Joseph A. Bayer of Mansfield and four out-of-town lawyers in a taxpayer's suit involving the estate of the late Frank B. Black will receive as their fee 20 per cent of any taxes that might be collected as a result of the action, the Fifth district court of appeals ruled today.

The court set the percentage to cover counsel fees after Bayer and his co-counsel filed an application with the court which heard the case at Ashland. In their application, the attorneys cited that a one-third share of the tax collected may be allowed under the state law.

No assessments against the estate have been made so far in the suit which seeks to collect back personal taxes allegedly due for the period from 1926 to 1932.

There is as yet no evidence that there are unpaid taxes due and no steps toward assessments can be made until an audit of the records of the Black estate has been completed, County Auditor Norman L. Wolfe pointed out.

Wolfe is a defendant in the action which was filed by Michael Hallabrin of Mansfield as a taxpayer. Bayer and Attys. Hart, McHenry and Jones of Canton and Hostetter of Massillon represent Hallabrin.

Russia Intensifies Attacks on Finns.

MOSCOW—(AP)—The Soviet Russian press intensifying attacks on Finnish foreign policy, today quoted an Estonian newspaper as saying that Finland's "obduracy" was impairing her relations with the U. S. S. R.

In a dispatch from Tallinn, Tass, official Russian news agency, said the Estonian newspaper Uus Eesti had criticized Finland's military preparations and urged that she "regulate relations with her great eastern neighbor as soon as possible."

"Finland is hurting herself—no one can deny that," the dispatch quoted the paper as saying.

In another dispatch from Helsinki, capital of Finland, Tass charged that Finns were being taught to "hate Russians" with the encouragement of "the English bourgoisie."

The attacks, reminiscent of Soviet newspaper comment preceding the Russian march into Poland two months ago, were interpreted by foreign observers as part of a campaign to induce Finland to grant Russia's demands for territorial concessions.

At the same time Great Britain was the object of sharp criticism in Pravda, Communist party newspaper, which commented on "deplorable conditions" in India under British rule.

Pravda said that India had the "largest army of unemployed in the world" and that 92 per cent of the population was illiterate.

In the Helsinki dispatch, Tass declared that Finnish "reactionary elements" were fostering an "anti-Soviet policy" and preaching a doctrine of "hate" in the army and in the schools.

All Still Quiet on Western Front.

PARIS—(INS)—The entire western front remained quiet today, with action limited to small clashes and occasional hand-to-hand encounters between reconnaissance patrols.

French quarters expressed interest in reports of what they called a "curious outbreak" of German propaganda which they said was exaggerating the extent of the fighting around the Moselle river region.

Chaos After War, Belgo-Dutch Fears.

THE HAGUE, Netherlands—(U.P.)—The fear of chaos following the war, rather than the fear of invasion, prompted the peace mediation offer of Queen Wilhelmina and King Leopold of Belgium last week, it was reported today.

Germany's rejection of the offer, following discouraging replies from Great Britain and France, was not believed to have ended the low countries' struggle to restore peace.

Dutch officials were said to be studying closely the replies from all three countries in hopes of finding a starting point for a new peace movement backed, perhaps, by other neutral countries.

At the time the Belgo-Dutch offer was made, rumors spread through Europe that it had been prompted by the imminent threat of a German invasion but today, it became more clear that Wilhelmina and Leopold were thinking of what would follow the war—perhaps chaos a thousand times worse than that of 1918. They feared, it was said, that the disaster would be as bad for the loser as the winner and that the eventual victor would be a third party—not named but plainly indicated to be Russia.

U. S. RELEASES AL CAPONE FROM FEDERAL PRISON AT LEWISBURG

(Continued From Page 1)

he had not requested the escort.

Bennett said that there would be some watch of Capone's condition, but declined to say how long he would be given this attention. Bennett said he probably would make that public next week.

The director declined to say what his condition was. Earlier Bennett had announced the release. He said:

"Capone was transferred today from the federal correctional institution near Los Angeles to Lewisburg.

"The decision to discharge him today was based on a petition filed by attorneys requesting credit for three days he spent in federal custody between Oct. 24, 1931, to Oct 27, 1931, the date on which the United States circuit court of appeals suspended execution of judgment under which he was originally sentenced on Oct. 24, 1931.

"Capone began service of a 10-year penitentiary sentence for evasion of income taxes May 4, 1932, an completed this portion of his sentence on Jan. 19, 1939, upon which date he began service of the sentence of one year for failure to file his income tax return.

"With allowances for good behavior and credit for three days spent in jail in October, 1931, Capone's sentence expired Nov. 16, 1939."

Bennett's announcement did not say what relatives were on hand to welcome the one-time racketeer as he left the penitentiary a free man.

Even as Capone was released, Capt. Daniel Gilbert of the state's attorney's police in Chicago said of the recent assassination of turfman Edward J. O'Hare:

"There's no longer any doubt about it being a Capone job."

By "a Capone job," Gilbert said he meant to lay the killing at the door of what is left of the gangster organization Al Capone once ruled.

Merry-Go-Round First To Locate Al

(EDITOR'S NOTE: This special dispatch from Drew Pearson and Robert S. Allen, who write the Washington Merry-Go-Round, which appears in The News-Journal, was received shortly before midnight Wednesday. Their account of the move of Capone from Alcatraz to Lewisburg is a notable newspaper "beat," since they were far ahead of other reporters. As late as this morning, Lewisburg penitentiary officials were still denying that Capone had ever been there.)

By DREW PEARSON and ROBERT S. ALLEN

(Copyright, 1939, United Features Syndicate, Inc.)

WASHINGTON—While the entire country was searching for Al Capone, who has just been taken from Alcatraz, the Washington Merry-Go-Round located him Wednesday in the Lewisburg, Pa., federal penitentiary, where he will be released to his family by the time this appears in print.

He is being taken out of the prison carefully disguised and placed in a convoy of automobiles which will drive him to a sanitarium.

Spirited secretly from Alcatraz, the famous gangster traveled by rail to Lewisburg, where not even the other prisoners knew of his arrival.

Federal prison authorities were anxious to give Capone a chance to join his family and be taken to a sanitarium before his old enemies of the underworld, and the hundred and one newspapermen who have been searching for him, discovered his whereabouts.

Although technically a free man, Al Capone probably never will be absolutely free. In advanced stages of paresis, he must be confined to a sanitarium.

Also the department of justice plans to watch him because he has developed a phobia against a certain prominent politician in the far west whom he is determined to kill.

Reports 'Scarface' Already In Hospital

(By United Press)

PHILADELPHIA — Al Capone is in suburban Villanova for treatment of paresis, a well-informed police official said today.

The former Chicago gang leader is being guarded by department of justice agents.

Capone was said to have been brought secretly across the country from Terminal Island prison at San Perdo, Cal., where he had been moved from Alcatraz prison, to be placed in a sanitarium for treatment of paresis, a softening of the brain resulting from syphillis.

A relative of the former gang leader was a student at Villanova college several years ago and Capone and his brother, Ralph, reportedly bought or leased a house there at that time. Efforts to locate the private sanitarium where he will be treated were unavailing.

H. B. Fletcher, special agent in charge of the federal bureau of investigation's Philadelphia field office, ridiculed reports that his men were guarding the convict and said he had no interest in Capone's whereabouts. It was believed, however, that Capone's guards were California G-men who took him to Villanova.

Claims Slain O'Hare Tipped U. S.

(By United Press)

CHICAGO—Edward J. O'Hare, racing magnate who was assassinated in gangland fashion Nov. 8, was the witness who in 1931 supplied the government with evidence to send Scarface Al Capone to Alcatraz for income tax evasion, an informed and reliable source told the United Press today.

"It's true that O'Hare supplied the evidence—and God only knows what is going to come out of this," the informant said.

"I think there may be more murders."

The information came from one of a handful of Chicagions in possession of the real story behind the government's successful effort to put the gang leader behind bars. The United Press is unable to reveal his name but can say that his status was such that he could speak with complete authority regarding the Capone income tax investigation.

The disclosure was studied with interest by detectives who for more than a week have been stymied in their efforts to learn the identity of gunmen who rubbed O'Hare out with shotguns as they pursued his automobile from Sportsman's park, O'Hare's race track on the south side.

(Continued From Page 1)

A total of 177 new automobiles were sold in October, the highest number for any months since May. The number boosted total sales for the year to 1,879, or 833 more cars than was sold in Mansfield during the corresponding period in 1938. The increase for the year was listed at 79.6 per cent.

Postal receipts showing a 10 per cent gain so far this year were up to nearly $330,000 as compared with $299,000 recorded at the same time last year.

Bus fares for the second consecutive month showed an increase, jumping 7.5 per cent during October for a net gain of three per cent for the year.

Mercantile sales for the first time this year showed a slight decrease with sales tax receipts dropping off 4 per cent during the month. The gain for the year, however, stood at 25 per cent.

New construction which has paced the business activity for the past 10 months for a 130 per cent increase over 1938 slid off 50 per cent last month. The valuations totalled $103,000 as compared with $207,000 for September.

The Bureau of Unemployment Compensation reported that benefit payments to unemployed workers in the Mansfield area last month amounted to $17,555, a decrease of 7 per cent under the September payments.

The trend also was reflected in the records of the re-employment service which showed a decrease, the applications for work dropping from 293 in September to 281 last month.

SUPREME COURT JUSTICE BUTLER DIES AT AGE 73

Conservative on High Court, Suffering Bladder Ailment, Stricken Today.

(Continued From Page 1)

1922 by President Harding, a Republican.

Because he had been attorney for several railroads and many corporations, several midwestern Progressives fought his confirmation by the senate. They contended he would be a reactionary.

Physically he was a large man with piercing blue eyes, a round face and curling hair.

Away from his judicial duties, he was a genial story teller and loved to play golf—though not expertly.

Genealogically he was thoroughly Irish. He and his father, whose name was Patrick, both were born on St. Patrick's day.

Butler wrote the 1936 opinion holding unconstitutional a New York law fixing minimum wages for women. It was reversed a few months later by a decision sustaining a similar statute enacted by Washington state.

The judge asserted that such legislation was "repugnant to the due process clause of the fourteenth amendment" in that it deprived women of the right to contract.

He also wrote a dissent to the majority opinion holding constitutional the unemployment insurance provisions of the social security act. He contended that "the statutory scheme is repugnant to the tenth (state rights) amendment."

"The constitution," he said, "grants to the United States no power to pay unemployed persons or to require the states to enact laws or to raise or disburse money for the purpose."

Butler had not participated in recent decisions of the court.

Mr. Roosevelt already has appointed Justice Hugo L. Black, Stanley Reed, Felix Frankfurter and William O. Douglas.

They succeeded Willis Van Devanter, George Sutherland, Benjaman N. Cardozo and Louis D. Brandeis. Justice Cardozo died; the others retired.

Capital Speculates On Butler's Successor.

WASHINGTON —(AP)— A list of names which might serve as a "who's who" in the judicial world was put forward today in speculation over a supreme court successor to Justice Pierce Butler.

High on the roster were such administration stalwarts as Solicitor General Robert H. Jackson of New York, who has argued many New Deal cases before the high tribunal; Attorney General Frank Murphy of Michigan, and Senator Wagner (D-NY).

Those who believed the appointment should go to the west, mentioned among others Thurman Arnold of Wyoming, assistant general in charge of the anti-trust division; Senator Lewis B. Schwellenbaugh of Washington, and Judge Harold Stephens of Utah, a member of the United States court of appeals for the District of Columbia.

Advocates of the nomination of a woman advanced the name of Florence E. Allen of Cleveland, a member of the sixth federal circuit court of appeals.

It also was suggested in some circles that it was entirely possible to name to the court one who is not a lawyer. There is no constitutional requirement that a supreme court justice be a member of the legal profession. All thus far have been lawyers.

Others mentioned in unofficial speculation for the post included:

Federal Circuit Judge William Denman of San Francisco.

Federal Circuit Judge Sam G. Bratton of Albuquerque, N. M., former Democratic senator.

Justin Miller of California, a member of the United States court of appeals for the District of Columbia.

Donald R. Richberg, former administrator of the National Industrial Recovery act.

Senator Minton (D-Ind).

Samuel Roseman and Ferdinald Pecora, judges of the New York supreme court.

Robert M. Hutchins, president of the University of Chicago.

James M. Landis, dean of Harvard law school and former chairman of the securities commission.

Lloyd K. Garrison, dean of the University of Wisconsin law school.

The story is told first by a prototype of the proverbial "Wandering Jew," in this case Pan Viadonsky of Warsaw, who believed that he himself was the Roman governor of the Jerusalem fortress. The second part purports to come from a newly discovered fifth century manuscript; the third is by Pan's young Jewish scribe who writes as if he were a disciple of Rabbi Nicedomon.

SAM by John Selby of Columbus, is a novel of a mid-west newspaper publisher, lusty and full of animal vigor. His wife, Martha, is a subdued figure whose spirit is nearly broken by Sam's relentless drive to found an empire for himself and his son, Teddy.

SO STANDS THE ROCK by Anne Miller Downes is a novel of Vermont. Jessie Perkins, after marrying Angus Shawn, succeeds in taming his wild dreams to match her steady thrift and build for them both a sturdy existence rooted deep in reality.

I BELIEVE: THE PERSONAL PHILOSOPHIES OF CERTAIN EMINENT MEN AND WOMEN OF OUR TIME, edited, with an introduction and biographical notes, by Clifton Fadiman, is a collection of essays written by 21 notable men and women of our world today. These were collected by the editors of the Forum, as a sequel to LIVING PHILOSOPHIES, published in 1931.

IT'S A WOMAN'S BUSINESS by Esther Hamburger relates the brilliant career of a witty and clever woman in fashion advertising who started at the bottom of the ladder as a twelve dollar a week substitute stenographer at Macy's. She has stepped up until now she is executive vice-president of Jay Thorpe, one of America's most exclusive stores for women.

BEYOND THE SENSES by Charles Francis Potter, founder of the First Humanist Society of New York, is a survey of the entire field of extra sensory preception, including telepathy, clairvoyance and precognition, with many interesting personal experiences cited.

New Dealers Urge Donahey to Run for Ohio Governor

REPORTS STIR SPECULATION ON 1940 RACES

Vic, on Record He Won't Ask Re-election, Boomed to Oppose Bricker.

(By Associated Press)

WASHINGTON — Reports current at the Capitol that New Dealers have urged Senator Donahey (D-Ohio) to seek the Democratic nomination for governor of Ohio helped focus attention today on 1940 races for 34 senate seats.

Donahey, a former governor of Ohio, is one of 25 Democrats whose terms expire in January, 1941. The tenure of seven Republicans, a Progressive and a Farmer-Laborite also will end at that time.

Donahey said more than a year ago that he would not be a candidate for re-election. He is understood to have repeated that statement to friends shortly before he voted against the administration's neutrality bill in the special session of congress.

Despite this opposition vote, leading New Dealers were said to have urged Donahey to seek the governorship in a race which is expected to find Gov. John W. Bricker, Republican, a candidate to succeed himself.

In Donahey does not seek re-election, he will be one of few senators to retire voluntarily. Senator Hale (R-Me.) has told friends that he did not intend to be a candidate again.

The other six Republicans whose terms expire—Senators Austin of Vermont, Barbour of New Jersey, Frazier of North Dakota, Johnson of California, Townsend of Delaware and Vandenberg of Michigan—have planned active campaigns.

'40 Chances Dim.

One Republican strategist, who asked to remain anonymous, said it appeared unlikely to him that the Republicans could gain control of the senate before 1944, even if they enjoyed better than average success in intervening campaigns. He predicted a maximum gain of eight Republican seats in the 1940 election.

The senate now is composed of 69 Democrats, 23 Republicans, 2 Farmer-Laborites, 1 Progressive and 1 Independent.

A Democratic leader, who asked that his name not be used, said he considered his party's chances in the senate races much better than those of the Republicans in all but three northern states.

CHICAGO — (INS) — A nation-wide campaign to boom John W. Bricker of Ohio for the Republican presidential nomination in 1940 soon will be launched in Chicago, it was learned today. A group of Republicans were discovered to have established Bricker-for-President headquarters here.

COLUMBUS — (INS) — On announcement from Chicago that a nation-wide campaign would be launched soon to boom Governor Bricker for the Republican presidential nomination next year, came as a complete surprise today to the Ohio capital.

Bricker could not be reached immediately for comment.

Ohio C. of C. Hits U. S. Meddling In Foreign Politics

The federal government today was urged to "cease meddling in foreign politics to which the United States is not a party" in a resolution adopted by the Ohio Chamber of Commerce at the opening session of a two-day convention in Cleveland, dispatches to The News-Journal said today.

The resolution charged federal officials with responsibility for development of a foreign policy to keep America out of European entanglements which might draw this country into war.

A delegation of 20 from the Mansfield Chamber of Commerce, headed by President C. L. VanDerau are attending the 46th annual meeting at the Hotel Cleveland. Among them was John W. Graham, general manager of the News-Journal who is to be elected to the board of directors of the Ohio chamber this afternoon. He was named by the nominating committee at a meeting in Columbus last week.

Paul W. Williams, former secretary of the Mansfield chamber and now managing director of the Dayton C. of C. was to be one of the convention speakers this afternoon.

FORMER MANSFIELDER DIES

Charles Page, a former resident of this city, died at his home in Sacramento, Cal., Tuesday, it was learned here today. The survivors include a daughter, Mrs. Esther Duncan, and a brother, Frank, of Mansfield. Funeral services will be held in Sacramento Friday.

Italy Warns Russia Away From Southwest

Up and Down THE STREET

The children's room at the Public library is all decked out for National Book week and the youngsters are making the most of it. Tables and shelves are arranged to represent countries and books written about those countries are displayed. In the center of each display is a map of the country and two costume paper dolls representing children of the country. There are dolls from Africa, Norway, China, South America, France, Italy, and the British Isles. The display has attracted many children this week, all interested in reading about boys and girls in other lands.

Most people are tickled pink to get a dozen or two roses on their birthday, but Charles F. Askerman, president of the Mansfield Savings Trust National bank, had a bouquet of 82 long-stemmed red roses on his desk today. Employes of the bank followed an annual custom to present him with a rose for each of his birthday anniversaries, and he's celebrating his 82nd today. And as usual he went hunting yesterday and came home with two pheasants which he bagged himself.

* * *

This Indian Summer weather may make most people happy, but it's a pain in the neck for the pheasant hunters and worse than that for their dogs. Dry weather makes the weed stalks sharp and unwielding in the fields and the dogs' noses and heads are slashed as they run through the weeds in quest of game. Besides, the weed dust chokes them and deadens their sense of smell, making it more difficult to trail game. A number of hunters in Mansfield said they are going to keep their dogs at home until there is a rain to make the going smoother.

The Richland County Chapter of the Red Cross has a renewal on two memberships from Denver, Col. Last year Mr. and Mrs. H. B. Hudson of Denver, were driving through Mansfield on their way to Florida for the winter when they saw the big Red Cross flag heralding the opening of the Roll Call. They paid their memberships at the local office. Yesterday they were passing through the city again on their way south, the Roll Call flags were flying and again they stopped long enough to re-enlist.

WAR NURSE DIES

Modest Heroine Hunted 17 Years for French Honor.

PITTSBURGH —(AP)—Complications following an operation claimed the life of Nurse Minette De Lozier who did herself so well after heroic World war service that the French government hunted 17 years to award her the Croix De Guerre.

Death occurred yesterday in the quietness of her home where the modest Miss De Lozier—she wouldn't disclose her age—kept out of sight the many medals bestowed by the French and American governments for devotion to duty.

The nurse who once made a batch of candy for General John J. Pershing on the battlefields of France had to hunt for her awards if she could be persuaded to show them. She liked best the victory medal designating service in five major battles of the war.

WAITS BRICKER RELIEF REPLY

Cleveland Scrapes Up $13,000 to Give Needy 10-Cent Meals Until Jan. 1.

(By International News Service)

CLEVELAND—Still waiting for action by Gov. John W. Bricker, Cleveland and Cuyahoga county today resorted to extreme measures to provide food for destitute relief clients.

County Budget Commissioner Joseph T. Sweeny informed Miss Bell Greve, county relief director, that transfers from county funds made available $13,000 for county relief for the rest of the year. The fund would allow approximately 10 cents per meal for county relief clients until Jan. 1.

Meanwhile Mayor Harold H. Burton and a Cleveland civic committee prepared a letter asking a special session of the legislature to be presented to members of the assembly, the governor and other state officials.

Bricker, who was scheduled to address the Ohio chamber of commerce in Cleveland today, indicated he would delay action until he had heard from the committee.

Burton said Bricker recommended Tuesday that the committee send letters to legislators, but had not asked that the committee appeal to him again. The desperate relief situation also will be outlined to the Ohio chamber, Burton said.

SEEKS WAY OUT

State Education Director Goes to Toledo, Schools Face Shutdown.

COLUMBUS—(INS)—State Education Director E. M. Dietrich was to confer with Toledo school officials today in an effort to map some way of avoiding a shutdown of city schools, facing a financial crisis.

Before leaving Columbus, Dietrich said the quarterly distribution of school foundation funds would provide Toledo schools with $351,759. However, Dietrich pointed out that this sum would operate the schools only for about a month.

'ROMEO' LOWTHER WINS COURT TIFF WITH PARENTS OF 'JULIET'

(By Associated Press)

NEW YORK—Dashing George Lowther, III, 30-year-old broker "Romeo," has won the right to see his pretty "Juliet," or even marry her if she wants him—and she says she does.

Love triumphed over parental barriers yesterday in Manhattan's unromantic state supreme court, where Lowther had petitioned for a writ of habeas corpus, alleging Mr. and Mrs. Walter R. Herrick had kept their daughter Eileen, 20, a "prisoner" to prevent her marriage to him.

Justice Isidor Wasservogel, after questioning everyone concerned, told the parents, "she is past the age of consent. If she wants to marry this man, she has the right to do so. She ought to listen to her parents' advice, however, but she has civil rights, too, and if she makes a mistake, it's her mistake and her life."

The justice decided that Lowther must not attempt to see Eileen for the next ten days while she remains in a hospital to recuperate from a nervous condition.

Lowther's difficulties with the Herricks started when his plan to carry Eileen down a ladder and off to the parson failed to materialize. The Herricks refused him permission to see their daughter, and Lowther, contending she wanted to see him, filed the petition. Supreme court attaches said it was the first time in their memory that a father had been compelled to produce his daughter under a writ of habeas corpus obtained by a suitor.

The Herricks first appeared in court without their daughter, saying she was in a hospital for some "rest," but the justice ordered that she be produced. When she entered the courtroom, Lowther rushed toward her with outstretched arms. Herrick shouted, "get away from her," and shoved the broker. A detective separted them.

During the proceedings, Lowther's attorney asked Miss Herrick, "if you had your liberty, would you marry Mr. Lowther?"

"Yes, sir," she replied.

$805 FOR BAND

Mothers Raise Third of Goal for New Uniforms.

With little more than a month of work behind them, the Band Mothers club of Senior High school today had raised $805 toward their goal of $2,500 for new uniforms for the school band.

A gift of $100 from the Loyal Order of Moose this week, $35 made on a band dance, and $25 from the American Legion auxiliary brought the amount up to $805, according to Mrs. R. F. Steinebrey, president of the club.

Continuing their fund raising activities, the mothers will sponsor a rummage sale this week and on Dec. 7 will present a musical show in the high school auditorium.

The club of mothers of band members was formed Oct. 9 and immediately began work with bake sales and a tag day. The American Legion gave $200 toward the fund last week. There are about 125 members in the band and the club estimates the cost of new uniforms at $20 each.

35,000 A. F. of L. Workers In Movies Demand Wage Increases.

HOLLYWOOD — (AP) — The threat of a general walkout of 35,000 American Federation of Labor workers in motion picture studios faced the film industry today.

Unless all A. F. of L. union men working in the studios are granted a wage increase of 10 per cent by next Monday, there will be a general walkout of the A. F. of L. workers, union leaders said.

FASCIST POLICY ESTABLISHED IN 2 RADIO TALKS

Also Insists on Control of Mediterranean, Asserting Desire for Peace.

(By International News Service)

ROME—Italy, in her role as protector of the Balkans, today voiced her strongest warning since Soviet political expansion began in the north, that no Russian drive towards the southwest would be tolerated.

The admonition, with obvious government approval, came from Francesco Coppola, editor of the Gazetta del Popolo, and authoritative member of the Royal academy of Italy.

Italy, he wrote in his paper, "will never permit any further advance of Bolshevik Russia beyond the Carpathians, into the Danubian valley, through the Balkans, or towards the Mediterranean."

This declaration ruled out at the outset, so far as Italy is concerned, any Russian ambitions for recovery of Rumania's eastern province of Bessarabia.

In recent weeks Italy, with the collaboration of Great Britain, has been fostering a Balkan "pleace bloc" aimed to prevent any German or Russian expansion on the Balkan peninsula.

Backs Up Gayda.

Coppola's statement gave support to an important declaration by Virginio Gayda, editor of the Giornale D'Italia and press spokesman for Premier Mussolini.

Control of the Mediterranean, said Gayda, belongs to Italy, which desires a "better and more lasting peace based on justice."

In a radio address broadcast to the United States, Gayda attacked the Versailles Treaty. He charged that Italy was "betrayed" by the Allies. He said:

"Italy wants an open door to the Aegean Sea, so she can reach every port in the world and peacefully expand her trade and culture without being subjected to permanent foreign watchmen, as seems to be the case in the Mediterranean.

"Italy expects a revision of the colonial system based on justice and the permanent possibility of living outside those close limits of the Mediterranean which a great Englishman, Mr. Balfour, termed Italy's prison.

DEAD FOR WEEK

Body of Infirmary Inmate Who Ended Life, Found in Shed.

Funeral services were held at 2 p. m. today at the Geiger funeral home for Otto DuPoy, 58, a resident of the county infirmary, whose body was found hanging yesterday afternoon in the woodshed at the abandoned Wolford school in Weller township.

Coroner Hugh Winbigler returned a verdict of suicide and said the man apparently had been dead for a week or 10 days. The body was found by William Butterfield of Galion who was hunting rabbits near the school. Deputy Sheriffs Frank Robinson and Glenn Freeman investigated.

Mr. DuPoy, who formerly lived at 112½ North Main street, left the infirmary about three weeks ago to go to Mansfield. He did not return and Supt. Grover C. Dickson said he thought he had been living in the city. Mr. DuPoy had entered the home on Aug. 22.

Rev. R. L. Foulke of the Central Methodist church officiated at the funeral services. Surviving are a step-mother, Mrs. Gertrude DuPoy of Mansfield, and a sister, Mrs. A. E. Taylor of Painesville.

FAIR ENOUGH!

Says Maverick's Fight As Texas Mayor Masks Mere Political Squabble

—By WESTBROOK PEGLER

SAN ANTONIO, Texas—After three days of conscientious listening, I have just discovered what is wrong with the big story of Maury Maverick's fight against the powers of entrenched greed, indifference and all like that, in San Antonio.

The trouble is that it is just another lousy little local political fight which would not have been heard of beyond the county limits but for Maverick's national reputation or publicity as a New Dealer. As most of us know, Maverick was a New Deal congressman for two terms, but was knocked off the last time around.

He was beaten by a fellow townsman named Paul Kilday, but came right back as a candidate for mayor and was elected, whereupon he started a lower-case new deal of his own in San Antonio.

* * *

The first holdover whom he fired was Owen Kilday, the chief of police, a brother of the man who licked him in the congressional election. Just lately, Look, a picture magazine, published a story by Maverick, broken up into paragraphs, or cut-lines as we call them in the newspaper business, and one of these pictures showed Owen Kilday, a jowly copper, asleep in a chair with the bill of his cap shading his eyes.

It was one of those dirty-pool pictures which the picture magazines have introduced into journalism, conveying a suggestion that Kilday was always asleep on the job, and, with a little help from the imagination, that he was rummed up.

The cut-line didn't say that, when the picture was taken, Kilday had just done 48 hours of continuous duty in an emergency, but friends of Kilday insist that such was the case. I don't know. I wasn't there, but I am told that that is the other side of the picture.

Maverick tore the police department apart. It does appear to have been a terrible police force and, incidentally, typical of the police work in so many minor league cities where cops are political appointees and neither intelligence, training nor aptitude is considered.

Maverick got together a board, and 68 cops out of the 248 were fired. He says that in the I. Q. tests the marks actually hit zero in seven or eight cases, that the head of one important squad scored only five and that the other men who were dismissed scored between 35 and 85. The average age of those who were fired, or, if you prefer a nicer word, retired, was above 60 years, and this would be a good place to consider why the word "retired" is the bunk in these cases and why so many old men were still hanging around.

* * *

They aren't actually retired at all, because retirement ordinarily implies a pension. The pension plan of the San Antonio police department fell apart a long time ago, because it was unworkable from the beginning and the old cops had been allowed to stay on because there were no pensions for them. There are no pensions for them now. They are just old men tossed out of their jobs.

Maverick's new deal follows the pattern of Roosevelt's. He brought in a bright young college-taught police executive named Ray Ashworth, a damned Yankee, what's worse, and made him chief, and Ashworth set up a police academy in which a lot of young, snappy cadets studied radio, finger-printing, evidence; in all, a compact paraphrase or gist of the modern stuff that Edgar Hoover's men learn in Washington.

Ashworth is a picture-cop of the new type, a great big, lean, athletic fellow about 34, with huge hands, the neck of a wrestler and a magazine-cover profile. He played football and basketball in some Quaker school, the name of which is lost somewhere among my notes, and learned police work in Wichita.

Wichita, it appears, has an almost perfect police department. This was news to me, too. Afterward, Ashworth lectured on police work, particularly traffic, at Northwestern university and had a job organizing street safety systems in various cities as an itinerant expert.

His new job calls for courage, not merely of the physical kind, which is expected of all cops, because obviously a Yankee would be subject to prejudice in San Antonio, and, moreover, the resentment against Maverick's treatment of the political cops who were fired or demoted runs against him.

But you see the similarity of Maverick's method to President Roosevelt's. Like the president, he goes out of his way to humiliate those whom he has defeated and he can't resist the temptation to pop off with unnecessary rough remarks which hit whole groups of elements of the population and their loyalty.

Like Roosevelt, he has a subtle way of suggesting that "respectability," as the term has always been understood by Americans, is in some way predatory and disreputable.

Although, as I said, this is just a local political fight, I think I will dish it again tomorrow, because Maverick is a news maker and his involvement in the story has blown it up.

Hollywood Speaks---

—By ROBBIN COONS

HOLLYWOOD—She's almost seventeen . . . and she's been kissed.

Almost seventeen, the little girl who led Universal out of the wilderness of debt and confusion, just by singing and being herself. The kiss is accomplished. While (it is safe to assume) the stars rocked in their courses and the world shook quietly, a young actor named Bob Stack placed his lips in approved juxtaposition to the lips of Deanna Durbin and a big moment in "First Love"—and in Deanna's career—slipped into history.

"Any other way," says Deanna gravely, "it would have been terrible, but it was handled so nicely. We just keep talking—about Diesel engines—and then the kiss—and we keep on talking—about Diesel engines. It makes a nice scene, I think."

Because time will march, it seems superfluous to report that Deanna isn't the little girl she used to be. If she ever had an "awkward age," she's safely through it, and the growing-up Durbin is an attractive young woman. Arrived, in fact, at the engagement-denying stage.

* * *

The boy is Vaughn Paul, assistant director and son of a studio executive. Although the 17-year-old girl next door to you probably goes out with boys occasionally, you haven't heard a commotion about it around your neighborhood. With Deanna now, it's different. Deanna's having a date unchaperoned was a cataclysmic event in the local whirl. It got written about, which is nice for Deanna's picture but puts Deanna on a little spot.

"Some people," says Deanna, "seemed to think it was wrong. Why? Vaughn and I aren't engaged, but we enjoy being with each other—so we have dinner together sometimes, and dance sometimes. There's nothing wrong in that, is there?"

The fans don't think so, contributes Deanna's mother. Fans who didn't want Deanna kissed in her last picture, who objected to the original plan to co-star Charles Boyer in "First Love" (on the grounds that Boyer is too old) have come out flatly in favor of a let-the-kids-alone policy as respects Deanna and Vaughn.

For all her new maturity, I caught Deanna redhanded on her old vice: fingernail-biting. Her right index nail was a stub.

* * *

Somehow Deanna's bicycle, on which she used to ride around the lot, came up for discussion. Deanna wanted to give it away, probably as being too childish a vehicle for her advanced years, but Mrs. Durbin thought she ought to keep it against the day bike-riding became the thing to do again.

I cite it because Deanna's reply proves that adolescents, in pictures or out, are still capable of firmness with their mothers.

"But mother," said Deanna a little severely, "if I have time for anything like that, I won't spend it bicycle-riding. I'll want to do the thing I want to do."

Red Nose Caused by Poor Health

By MME. QUI VIVE

We've heard of many a beauty grief that was just in a girl's eye. Didn't amount to anything. Nobody ever saw it but herself. Like a little beauty spot on the gardenia check. Or a group of inoffensive freckles. Or the tiniest hip bulge. But when a young lady lifts up her voice and yodels sorrowfully about a red nose we give her a sympathetic ear. She has reason to lament.

She feels that she looks like a blowsy tavern sitter. It gets her down, this affliction. Powder will not hide the roseate skin surface. Nothing, apparently, is of any help at all. She resigns herself to fate, as she resigns herself to the company of relatives who are not congenial.

When she goes out into a cold wind the nose blush appears. Or, if not then, it pops out luminously when she enters a warm room, joins the festive party.

Let's take a squint into sources and causes. The most likely one is poor circulation. Red nose, cold toes, clammy hands are anatomical comrades. Whip up the blood streams by doing deep breathing exercises every morning, having a salt glow and a cold shower. Rub moistened salt over the body. It makes the capillaries active.

Cultivate the habit of inhaling deeply. Individuals with a feeble respiratory power are usually languid, unambitious, lacking in vitality. Drag in the ozone. By mingling fresh air with the body fluids you will purify the blood and stimulate its activities. Not only will health be better, but eyes will be brighter, the skin clearer. It is possible that the red nose will see the error of its way and reform.

There is the important matter of diet which may be a factor. Stop insulting your digestive machine by eating rich pastries and sauces, large servings of meat, dishes that are highly spiced and an excess of sour foods. Keep to a balanced diet which includes plenty of fruit, cereals, fresh vegetables. Most of us eat more than we need. Women who do not exercise require little food, and most of it should be light, the kind that is easily digested.

Now for local treatment. Change your soap; a harsh soap can cause redness of the skin. When washing the face use tepid water, never hot or cold. Dry the skin surface gently with a soft towel. Rough treatment of a sensitive skin surface is to be deplored.

Spread on a film of ointment of zinc oxide, which is soothing and healing. No friction: just a light application.

When going out on a cold day wear stockings that are sufficiently heavy to provide warmth, shoes with sturdy soles. If you're going to clatter around in thin soles, you can expect your nose to redden.

Marriage Meddlers

By ADELE GARRISON

Continuation of "Married Comrades"

"And that's that," Harry Underwood said when he had finished retailing the conversation of the two plotters which he had just read from their lips.

The crux of the whole thing was the possession of my father's person, and for a horrible instant I was robbed of sight and hearing, almost of consciousness, as there flashed before me the unspeakable tortures and ultimate death which would be inflicted upon my father should he fall into the hands of this underworld organization, so many of whose members he had sent to their richly-deserved deaths.

It was an organization which ordinarily would have been rendered almost innocuous by the elimination of so many of its members, as had been accomplished by my father and his aids at the time of Queen Olga's rescue from the "pirate ship" and the friends who had manned it. But though badly wounded, the head of the organization, Jack Leslie, king cobra of them all, had escaped in some miraculous fashion, and had gathered around himself, my father believed, as sinister a collection of evil men as had ever been banded together.

Jack Leslie himself, more than half mad with "love" for Mary—although it is blasphemy to use the word in connection with him—was hiding in his stronghold on the eastern shore of Long Island, obsessed with his insane determination to abduct Mary, and thus appease his hatred of Noel, piling up since their boyhood.

The foiling of his attempt to seize her in recent weeks evidently had not affected one whit his wicked determination to get possession of her eventually. But now I realized tthat even as my father was planning to capture him, he had conceived this desperate plot for getting possession of my father's person.

Although there was no shred of evidence to connect Jack Leslie with Dicky's pseudo-secretary and her gangster companion, I was as sure that the two in the restaurant were acting under Leslie's orders as if I had heard his voice issuing the commands to them.

How Dicky had become enmeshed in the toils of these two, I had no idea as yet, and, of course, being a woman, I was conscious of both curiosity and resentment regarding this minor mystery. But I had no time to dwell upon it, for Lillian nudged me.

"Pipe Ede!" she said. "She's getting ready to broadcast, or I miss my guess.

I followed her glance to the table where Dicky and Edith were seated, and realized, as I saw Edith rise while Dicky appeared to be trying to dissuade her, that Lillian had told me nothing of what she had gleaned from the lips of Dicky and Edith. But now she spoke hurriedlly.

"I didn't have a chance to short wave their dialogue while they were sounding it," she said, "because what the others were saying was so much more important. But whatever you hear, remember this: Dicky may have been chivalrously indiscreet, and the set-up may look bad, but I'll stake the last doughnut in the bag that he hasn't done anything which would give you any real legitimate kick."

"I am sure of that," I said smoothly, but the words cost me a tremendous effort. And then I saw Dicky put his hand beneath Edith's elbow with a chivalrous protective gesture, and cross her to the table where sat the woman who had posed to me as his secretary.

HOROSCOPE

For Friday, November 17

Lively conditions prevail on this day in both business and personal affairs. While these matters move at satisfactory tempo, there also may be on over-wrought or highly accelerated pace which could prove detrimental if not prudently handled. The young and all intterests and ambitions of a youthful character are under particularly exciting impetus. Affectional or romantic attachments may engage the attention to the hazard of purely business relations. Courtship and marriage are indicated, but be wary of dubious intrigues or subtlety.

Those whose birthday it is may find themselves caught up in a year of much activity of a romantic, emotional nature, with social engagements, entertainment and youthful pleasures and pastimes claiming major attention. The eligible will find courtship or matrimony intriguing and unless manipulated with discretion there may be sinister or detrimental involvments.

A child born this day may be talented in both business and social lines, or it may have particular gifts in art, music or drama. It should be entertaining, enterprising and personally popular.

GONE WITH THE WIND

Lace, rich damasks, and fringe give grace and elegance to window settings that take their cue from the decorating theme of the moving picture, "Gone With the Wind." The windows of homes in pre-Civil war days in the South were adorned in the grand manner. Decorating materials today are even more attractive than in earlier days and there are lace net curtains, luxurious drapery materials and fringes galore to give windows the opulence that "Gone With the Wind" brings into fashion.

BARCLAY ON BRIDGE

"The Authority on Authorities"

TWO STOPPERS VITAL

Most treatises on the bidding of no trump game contracts prescribe two stoppers in the suit bid by your opponents as an essential requirement. There are times when this may be departed from safely, especially when you are able to run nine tricks as soon as you get the lead. Another time is when you are in position to take finesses toward the partner of the suit bidder, so that you may be able to keep the dangerous hand out of the lead after his suit is set up. But when finesses have to be taken toward the man with the suit, two stoppers of it are usually required.

	♠ 9 6 3 ♥ Q J 5 4 ♦ J 9 2 ♣ J 6 5	
♠ A K Q 8 ♥ 4 2 ♦ 10 ♦ 8 3 ♣ 10 9 4 3	N. W. E. S.	♠ J 7 ♥ K 8 6 3 ♦ A 6 5 ♣ A Q 8 2
	♠ 10 5 ♥ A 9 7 2 ♦ K Q 10 7 4 ♣ K 7	

(Dealer: South. Neither side vulnerable.)

The difference between thoroughly sound bidding and that which is a bit venturesome was illustrated on this deal at two tables of a duplicate game in Omaha. At both it began with 1-Diamond by South and 1-Spade by West. Then the course veered. At one table East bid 2-No Trumps and at the other he decided to show his suits, calling 2-Hearts. In the latter case West then bid 2-Spades, East 3-Clubs, West 3-Spades and East, now knowing his partner, after three bids of spades, had a six card suit, raised to 4-Spades, at which only one trick was lost in each side suit.

Where East bid the 2-No Trumps West rebid at 3-Spades and East bid 3-No Trumps. West properly passed this because his suit was solid. In the play East held up his A until the third diamond, ran six spades and then, to get the other needed two tricks, finessed the clubs. When this failed, South took two more diamonds to set the contract. If the diamond bid had been at East's right, so that a finesse in clubs would have been marked as likely to succeed, his No Trump contracts, with a lone diamond stopper, would have been sounder.

Tomorrow's Problem.

	♠ A J 10 7 5 ♥ 10 7 5 ♦ 8 6 ♣ A Q 4	
♠ K 8 6 ♥ J 3 2 ♦ K J 9 3 ♣ 10 9 3	N. W. E. S.	♠ Q 9 4 ♥ K 9 8 4 ♦ 10 7 5 ♣ K J 2
	♠ 3 2 ♥ A Q 6 ♦ A Q 4 2 ♣ 8 7 6 5	

(Dealer: West. North-South vulnerable.)

With the club A and Q knocked out of dummy, if the No Trump declared then takes a heart finesse and leads the spade 3, what card should West play, and why?

Plan For Holiday Festivities

By ALICE LYNN BARRY

Now is a good time to plan ahead for the festive season from Christmas to New Year's. The set dinners we can take care of; it is the casual kind of entertaining which needs pondering over. Then it is that we get busy with pantry shelves and store lists, making ready to stock up on things which are holiday specials.

A well-rounded shelf should contain a jar of pickles, stuffed olives, ripe and green olives, mayonnaise, various sharp and bland sauces, mushroom catsup, chutney, preserved ginger, cans of cookies, a tin of fruit cake, jars of cheese and cheese spreads, anchovy, lobster and shrimp pastes, sardines, bottles of shrimps, canned lobster, crabmeat, clam bouillon, tomato juice, various honeys, maple syrup, jam, spreserves, jellies, nuts and raisin clusters. With your shelf in mind, and having an idea of what various friends enjoy eating, it is easy to plan in advance.

Sandwich Idea.

A sandwich grill is a useful adjunct to the entertaining layout. Nothing like a nice hot toasted sandwich for a holiday hospitaliy special. For an inceresting sandwich, use three slices of bread for each portion. For the filling chop three-fourths cup shrimps and three-fourths cup lobster. Combine. Add four tablespoons mayonnaise. Put four tablespoons of this filling between two slices of bread. Spread third slice with anchovy paste. Press the three slices firmly together. Remove crusts with a sharp knife. After the necessary number of sandwiches are assembled, toast first one side, then the other. Cut diagonally across with a sharp knife. Sufficient for six sandwiches.

Haystacks go beautifully with coffee or cider. One cup granulated sugar, one-fourth cup brown sugar firmly packed, one-fourth cup light corn syrup, one-half cup light molasses, one-half cup light cream, one cup milk, four tablespoons butter and four cans southern style coconut will make 24 haystacks. Combine all items except coconut in saucepan and place over low flame. Cook, stirring constantly until small amount of syrup forms a firm ball in cold water (240° F.). Pour about quarter of the mixture in a small bowl, keeping rest soft over hot water until ready to use. Work in lightly as much coconut as syrup will take (about one can). Divide into equal amounts and drop on greased surface. Shape into cones. Continue until all syrup and coconut are used.

INSTANT COLD-WATER SUDS

SAVES STOCKING COLOR!

Women rave how new type suds keeps hosiery colors keener and brighter . . . Not a soap and thus contains no alkali to fade colors. An amazing improvement on even finest soap flakes because it suds perfectly in cold water.

4 VIRTUES OF VEL NOT IN ANY SOAP:
1 INSTANT SUDS IN COLD WATER
2 NO ALKALI TO FADE COLORS
3 NO COTTONY AFTER-LOOK FROM SOAP-SCUM
4 NO ACID OR ALKALI TO IRRITATE HANDS

EVERY woman knows how tough hot water and soap-scum can be on stockings, woolens, and all fine things. But here's thrilling news! Vel . . . the amazing new cold-water suds perfected by Colgate-Palmolive-Peet Company . . . does away with these enemies of fine fabrics.

Vel is not a soap. It is an entirely different washing principle. Vel is one hundred times as soluble as soap in cold water. Vel contains no acid or alkali to damage and fade colors and Vel leaves no soap-scum to dull colors and make silks cottony-looking. Thus, Vel is ideal for all fine fabrics, because it dissolves instantly in cold water to make mountains of billowy, cleansing suds.

See your stockings keep their delicate sheerness and fresh color amazingly longer when done in Vel's cold suds. See woolens and underwear regain bride-like freshness. Colored prints sing with radiant sparkle. Dishes and glassware glitter with highlights. See for yourself that Vel leaves no ring around the bowl. That shows no ruinous soap-scum can stay in dainty things to cause cottony after-look. So, try Vel . . . the amazing, instant cold-water suds today. Buy Vel today at any grocer's. Made and guaranteed by Colgate-Palmolive-Peet Company.

IN HARD-WATER TOWNS

U. S. Government Survey shows thousands of communities listed as "hard-water" towns. If your water is hard, Vel suds delight you more than ever because

Vel makes hardest water act soft as rainwater

Vel outsuds pure soap 2 to 1 in hardest water

Vel makes as much as 5 times more suds than expensive soap flakes in hardest water

VEL IS A NEUTRAL SYNTHETIC DETERGENT

Try VEL AND YOU'LL NEVER GO BACK TO SOAP!

Ask Dad—He Knows!

TRY PROHIBITION

India Provincials Decide to Ban Alcoholic Beverages.

CALCUTTA —(AP)— The British Indian province of Orissa, in Eastern India, has decided to introduce prohibition.

Provinces of British India where prohibition already operates in certain areas are Bombay, Madras, the Central Provinces, the Northwest Frontier, Assam, and Bihar. Bengal and the Punjab are the only provinces where some measure of prohibition isn't contemplated.

The Orissa move followed a recent decision by the provincial government of Sind to introduce a seven-year prohibition scheme.

Main criticism of such proposals comes from those who say that India's economic system won't be able to stand the consequent loss of revenue.

Books For Children

(Available at Mansfield Public Library)

Those fortunate parents who have experienced the rewards of reading aloud with their ten-year-olds will welcome the first new book reviewed here, and those same children will be pleased with the other one.

SKIPPACK SCHOOL, by Marguerite De Angeli—Among the German Mennonites who settled in Pennsylvania in 1750 was Eli Shrawder, a young boy, with his family. Eli wanted to do right and the kindly schoolmaster, Christopher Dock, helped him wisely. In spite of that pranks came easily to Eli. He won a coveted flower-painting however and learned the magic of printing.

NOT SO LONG AGO, by Ruth L. Holberg—Penny wanted more than anything else to have a box of colors so she could paint pictures. And after that she wanted to go to the Chicago World's Fair of 1893 to see the paintings by famous artists. She went to the Fair first and saw many of the wonderful things there and she got her lovely colors besides.

Auto Club Announces Sellout for Annual Banquet Friday.

A sell-out for the annual banquet of the Mansfield Automobile club tomorrow evening at the Mansfield-Leland hotel was announced today by Frank Beverstock, club secretary, after 225 tickets had been sold.

All seats were reserved by Wednesday afternoon and no more available, Beverstock said.

Andrew Trimble, Cleveland salesman who has played the late Will Rogers in several pictures, will be the principal speaker. In addition there will be a floor show and Bob Richards' orchestra will play during the dinner hour and for the show.
